N O T E

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

As of 4 February 2003, the official name of the “Federal Republic of Yugoslavia” has been changed to “Serbia and Montenegro”. In view of the cut-off date for information but also for technical reasons, it was no longer possible to reflect this change in the present *Survey*.

EXPLANATORY NOTES

The following symbols have been used throughout this *Survey*:

- .. = not available or not pertinent
- = nil or negligible
- * = estimate by the secretariat of the Economic Commission for Europe
- | = break in series

In referring to a combination of years, the use of an oblique stroke (e.g. 1998/99) signifies a 12-month period (say, from 1 July 1998 to 30 June 1999). The use of a hyphen (e.g. 1999-2001) normally signifies either an average of, or a total for, the full period of calendar years covered (including the end-years indicated).

Unless the contrary is stated, the standard unit of weight used throughout is the metric ton. The definition of "billion" used throughout is a thousand million. The definition of "trillion" used throughout is a thousand billion. Minor discrepancies in totals and percentages are due to rounding.

References to dollars (\$) are to United States dollars unless otherwise specified.

The membership of the United Nations Economic Commission for Europe (UNECE) consists of all the states of western Europe, eastern Europe, the Commonwealth of Independent States (CIS), North America and Israel.

For the convenience in presentation, the countries of eastern Europe and the CIS are sometimes grouped into subregions based on geographical proximity.

For historic reasons, the group of countries denoted as *Eastern Europe* refers to the former centrally planned economies (and their successor states) in this part of the ECE region and comprises the following subregions:

- Baltic states (BS-3): Estonia, Latvia and Lithuania;
- Central Europe (CE-5): Czech Republic, Hungary, Poland, Slovakia and Slovenia;
- South-east Europe (SEE-7): Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Romania, The former Yugoslav Republic of Macedonia and Yugoslavia;

The Commonwealth of Independent States comprises the Russian Federation and the following subregions:

- Caucasian CIS (CCIS-3): Armenia, Azerbaijan and Georgia;
- Central Asian CIS (CACIS-5): Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan;
- European CIS, excluding Russia (ECIS-3): Belarus, Republic of Moldova and Ukraine.

P R E F A C E

The present *Survey* is the fifty-sixth in a series of annual reports prepared by the secretariat of the United Nations Economic Commission for Europe to serve the needs of the Commission and of the United Nations in reporting on and analysing world economic conditions.

Until 1997 the *Economic Survey of Europe* was issued once a year as was the *Economic Bulletin for Europe*, the secretariat's second publication which focused on trade and payments issues. At its 52nd Session, in April 1997, the Commission decided to replace these two publications with an annual *Survey* of several issues. In 1998 and 1999 there were three issues each year. There are now two issues a year published in April and November.

The Survey is published on the sole responsibility of the Executive Secretary of ECE and the views expressed in it should not be attributed to the Commission or to its participating governments.

The analysis in this issue is based on data and information available to the secretariat in early February 2003.
