[16] E.g. geography or biology. For higher education "subject" means "course".

[17] A project is interpreted as a discrete activity with its own time allocation rather than a teaching/learning method.

[18] A "whole institution approach" means that all aspects of an institution's internal operations and external relationships are reviewed and revised in light of SD/ESD principles. Within such an approach each institution would decide on its own actions, addressing the three overlapping spheres of Campus (management operations); Curriculum; and Community (external relationships).
