For higher education institutions when answering: (1) regarding national legislation: this objective is focussing equally at the first stage of tertiary education (Bachelor), the second stage (MSc) and the third stage (PhD) while covering various aspects such as **service agreements/contracts**, **national strategies of R&D**, **university organisation and studies acts**, or **general laws of higher educations**.; (2) regarding national and/or national standards/ordinances/requirements: special attention shall be devoted to indications of linking systems of **quality assurance and accreditation** (with regard to the Bologna process) for higher educations institutions with ESD, as well as to **regulations of study programmes and study fields** which reflect the principles of ESD.

¹⁰ Between state bodies.

¹¹ For explanation see paragraph 46 of the Strategy.

Yes 🛭 No 🗌	ESD in the form of environmental education is addressed as the National Environmental Strategy (2002) and the National Environmental Action Plan-NEAP (2002) as one of the instruments of implementation. The section "Instruments for programme implementation-environmental education" of the NEAP contains the status report, identification of problems and priorities and objectives and measures in the field of environmental education.
