Dear Madam/Sir,

we would like to thank you for the reaction of the Communicant (in this case Mr. Jan Haverkamp) to the requested answer of the Ministry of the Environment of the Czech Republic, sent to us. However, having examined Mr. Haverkamp's reaction, we are convinced that it is not based on truth and request that it be not taken into account in the process of the evaluation of the relevant case.

Should this reaction be taken into account by the Compliance Committee, we would like to request that all discrepancies between our answer to the secretariat and Mr. Haverkamp's reaction to it be consulted with us, i.e. the Ministry of the Environment.

With best regards

Marie Petrová
