Meeting of the Parties to the Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters

Sixth session

Budva, Montenegro, 11–13 September 2017

Excerpt from the addendum to the report of the sixth session of the Meeting of the Parties (ECE/MP.PP/2017/2/Add.1)*

Decision VI/2 on promoting effective public participation in decision-making

The Meeting of the Parties,

Recalling the provisions of articles 6, 7 and 8 of the Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters (Aarhus Convention), and the provisions of article 6 bis of the amendment to the Convention on public participation in decisions on the deliberate release into the environment and placing on the market of genetically modified organisms,

Also recalling its decisions EMP.II/1 and V/2 on public participation in decision-making, V/5 on the strategic plan for 2015–2020 and VI/5 on the work programme for 2018–2021,

Recognizing the critical role of effective public participation for successful implementation of the Sustainable Development Goals,

Mindful that the 2014 cycle of national implementation reports, the findings of the Compliance Committee and the work carried out under the auspices of the Task Force on Public Participation in Decision-making to date have, collectively, shown that challenges remain to the full implementation of the second pillar of the Convention across the region,

Recognizing the vital role played by the Task Force on Public Participation in Decision-making in bringing together experts from governments, civil society and other stakeholders to exchange experiences regarding those challenges and to explore possible good practices to address them,

Welcoming the important contribution to furthering implementation of the second pillar played by organizations engaged in capacity-building at the national and subregional levels,

Also welcoming the work of Aarhus Centres in several countries, as platforms to facilitate public participation by providing environmental information, raising public awareness, promoting participatory debate on environmental policies, programmes and projects and providing assistance to members of the public in exercising their rights,
