Table of recommended C&I for SFM in LFCCs, suitable C&I should be selected based upon national circumstances and local characteristics (with listed indicators) (Jafari, 2006)

Criteria	Elements	No. of	Indicators
		Indicators	
Criterion 1: Biological Diversity		(total of 3 elements of 14 indicators)	
	Element 1-1: Ecosystem Diversity	(5 Indicators)	1-1-1- Forest area, age class in ecozone 1-1-2- Forest area, age class all types of soil and protected zone from geomorphology point of view 1-1-3- Forest type fragmentation 1-1-4- Forest ecosystem degradation 1-1-5- Area of protected forest ecosystem
	Element 1-2: Species Diversity	(6 Indicators)	1-2-1- Endanger species in forest 1-2-2- Population of species in a selected forest 1-2-3- Species distributions 1-2-4- Endemic and invader species 1-2-5- Suitable habitat for wildlife with economic value 1-2-6- Natural regeneration of species
	Element 1-3: Genetic Diversity	(3 Indicators)	1-3-1- Genetic diversity in seed reforestation 1-3-2- in situ and ex situ conservation of endanger species and species with economical value in each ecozone 1-3-3- Population of main and key species
Criterion 2: Ecosystem condition and its Production		(14 Indicators)	2-1- (Forest production), total tree growth, economical and non trade value trees  2-2- Increase or decrease of forest area, with the reason  2-3- Forest distribution for: forest fire, insects, pests, disease, wood harvesting (forest health and vigor)  2-4- Forest areas for: drought, acid wash and ozone impact  2-5- Forest area which regenerate successfully after harvesting  2-6- Mean annual increments (growth) based upon forest type and age class  2-7- Percentage of crown cover
			2-8- Percentage of biomass as volume (general type of forest) 2-9- Forest protected zones 2-10- Forestry project and percentage of coverage areas

			2 11 Forestry research project
			2-11- Forestry research project 2-12- Rehabilitation of arid and semi-arid zone
			2-12- Renabilitation of and and semi-and zone 2-13- Afforestation
Cuit aud au 2		/ / .	2-14- Forest parks
Criterion 3:		(4 Indicators)	3-1- Local acceptance (follow up) of standard law
Soil and			in related to the soil erosion
Water			3-2- Local acceptance of soil erosion in related to
			the road construction and river
			3-3- Area of watershed which are damaged
			(degraded) because of land use change in last 20
			years
		4:	3-4- Water level in forest zone
Criterion 4:		(total of 2	
Forest Role		elements 6	
in Global		indicators)	
Ecologic			
Cycle	Element 4-1:	(5 Indicators)	4-1-1- Changes of net carbon in forest ecosystem
	Carbon Cycle		4-1-2- Carbon storage in forest ecosystems,
			according to forest type and age class
			4-1-3- Net change in forest Carbon production
			4-1-4- Carbon emission in forest sector
	_		4-1-5- Net Carbon destruction
	Element 4-2:	(1 Indicators)	4-2-1- Partnership in Climate Change Convention
	Climate		and other related issue in forest sector
	Change		
Criterion 5:		(total of 4	
Social and		elements 22	
Social and Economic		,	
Social and	Flament 5.1	elements 22 indicators)	5-1-1- Share of wood production in GDP
Social and Economic	Element 5-1:	elements 22	5-1-1- Share of wood production in GDP
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from
Social and Economic		elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product 5-1-3- Production, Consumption, Import and
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product 5-1-3- Production, Consumption, Import and export of wood products
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product 5-1-3- Production, Consumption, Import and export of wood products 5-1-4- Share of non wood products in GDP
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product 5-1-3- Production, Consumption, Import and export of wood products 5-1-4- Share of non wood products in GDP 5-1-5- Value of non wood products (non trading)
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product 5-1-3- Production, Consumption, Import and export of wood products 5-1-4- Share of non wood products in GDP 5-1-5- Value of non wood products (non trading) 5-1-6- Production, Consumption, Import and
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product 5-1-3- Production, Consumption, Import and export of wood products 5-1-4- Share of non wood products in GDP 5-1-5- Value of non wood products (non trading) 5-1-6- Production, Consumption, Import and export of non wood products
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product 5-1-3- Production, Consumption, Import and export of wood products 5-1-4- Share of non wood products in GDP 5-1-5- Value of non wood products (non trading) 5-1-6- Production, Consumption, Import and export of non wood products 5-1-7- Share of forest related services in GDP
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product 5-1-3- Production, Consumption, Import and export of wood products 5-1-4- Share of non wood products in GDP 5-1-5- Value of non wood products (non trading) 5-1-6- Production, Consumption, Import and export of non wood products 5-1-7- Share of forest related services in GDP 5-1-8- Value of forest related services (non
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product 5-1-3- Production, Consumption, Import and export of wood products 5-1-4- Share of non wood products in GDP 5-1-5- Value of non wood products (non trading) 5-1-6- Production, Consumption, Import and export of non wood products 5-1-7- Share of forest related services in GDP 5-1-8- Value of forest related services (non trading)
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product  5-1-3- Production, Consumption, Import and export of wood products  5-1-4- Share of non wood products in GDP  5-1-5- Value of non wood products (non trading)  5-1-6- Production, Consumption, Import and export of non wood products  5-1-7- Share of forest related services in GDP  5-1-8- Value of forest related services (non trading)  5-1-9- Percentage of energy usage of renewable
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product 5-1-3- Production, Consumption, Import and export of wood products 5-1-4- Share of non wood products in GDP 5-1-5- Value of non wood products (non trading) 5-1-6- Production, Consumption, Import and export of non wood products 5-1-7- Share of forest related services in GDP 5-1-8- Value of forest related services (non trading) 5-1-9- Percentage of energy usage of renewable forest resources, compare to total energy use
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product  5-1-3- Production, Consumption, Import and export of wood products  5-1-4- Share of non wood products in GDP  5-1-5- Value of non wood products (non trading)  5-1-6- Production, Consumption, Import and export of non wood products  5-1-7- Share of forest related services in GDP  5-1-8- Value of forest related services (non trading)  5-1-9- Percentage of energy usage of renewable forest resources, compare to total energy use  5-1-10- Investment volume in forest growth,
Social and Economic	Economic	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product  5-1-3- Production, Consumption, Import and export of wood products  5-1-4- Share of non wood products in GDP  5-1-5- Value of non wood products (non trading)  5-1-6- Production, Consumption, Import and export of non wood products  5-1-7- Share of forest related services in GDP  5-1-8- Value of forest related services (non trading)  5-1-9- Percentage of energy usage of renewable forest resources, compare to total energy use  5-1-10- Investment volume in forest growth, health, management, planted forest, wood
Social and Economic	Economic benefits	elements 22 indicators)  (10 Indicators)	5-1-2- Value of secondary products from harvested wood product  5-1-3- Production, Consumption, Import and export of wood products  5-1-4- Share of non wood products in GDP  5-1-5- Value of non wood products (non trading)  5-1-6- Production, Consumption, Import and export of non wood products  5-1-7- Share of forest related services in GDP  5-1-8- Value of forest related services (non trading)  5-1-9- Percentage of energy usage of renewable forest resources, compare to total energy use  5-1-10- Investment volume in forest growth, health, management, planted forest, wood processing and tourism
Social and Economic	Economic benefits  Element 5-2:	elements 22 indicators)	5-1-2- Value of secondary products from harvested wood product  5-1-3- Production, Consumption, Import and export of wood products  5-1-4- Share of non wood products in GDP  5-1-5- Value of non wood products (non trading)  5-1-6- Production, Consumption, Import and export of non wood products  5-1-7- Share of forest related services in GDP  5-1-8- Value of forest related services (non trading)  5-1-9- Percentage of energy usage of renewable forest resources, compare to total energy use  5-1-10- Investment volume in forest growth, health, management, planted forest, wood processing and tourism  5-2-1- Forest areas and time of wood production
Social and Economic	Element 5-2: Benefit	elements 22 indicators)  (10 Indicators)	5-1-2- Value of secondary products from harvested wood product  5-1-3- Production, Consumption, Import and export of wood products  5-1-4- Share of non wood products in GDP  5-1-5- Value of non wood products (non trading)  5-1-6- Production, Consumption, Import and export of non wood products  5-1-7- Share of forest related services in GDP  5-1-8- Value of forest related services (non trading)  5-1-9- Percentage of energy usage of renewable forest resources, compare to total energy use  5-1-10- Investment volume in forest growth, health, management, planted forest, wood processing and tourism  5-2-1- Forest areas and time of wood production  5-2-2- Distribution of financial benefits of
Social and Economic	Economic benefits  Element 5-2:	elements 22 indicators)  (10 Indicators)	5-1-2- Value of secondary products from harvested wood product  5-1-3- Production, Consumption, Import and export of wood products  5-1-4- Share of non wood products in GDP  5-1-5- Value of non wood products (non trading)  5-1-6- Production, Consumption, Import and export of non wood products  5-1-7- Share of forest related services in GDP  5-1-8- Value of forest related services (non trading)  5-1-9- Percentage of energy usage of renewable forest resources, compare to total energy use  5-1-10- Investment volume in forest growth, health, management, planted forest, wood processing and tourism  5-2-1- Forest areas and time of wood production

			production industries
	Element 5-3:	(7 Indicators)	5-3-1- Annual wood production based on a
	Sustainability	(7 11101000010)	sustainable harvesting
	of benefits		5-3-2- Annual non wood production based on a
			sustainable harvesting
			5-3-3- Return of capital
			5-3-4- Productivity Index
			5-3-5- Employments
			5-3-6- Average income of main (jobs) working
			groups
			5-3-7- Area of forest protect for water harvesting
	Element 5-4:	(2 Indicators)	5-4-1- Investment in international forest sector
	International		5-4-2- Cooperation with other countries in forest
	partnerships		monitoring (data collecting) and reporting on C&I
	par error armpo		for SFM
Criterion 6:		(total of 6	
Social		elements 24	
responsibility		indicators)	
	Element 6-1:	(3 Indicators)	6-1-1- Increase of local people partnership in
	Expected		development of policies, implementation and
	programs for		agreement of SFM
	local people		6-1-2- Protect of the local people right in legal
	rights		agreement, commitment and program processing
			in SFM
			6-1-3- Forest area under local people management
	Element 6-2:	(2 Indicators)	6-2-1- Number of studies on traditional land use
	Traditional	(2 maicators)	which employed in forest management
	land use and		6-2-2- Local people income based upon traditional
	local forest		knowledge
	related		
	ecologic		
	knowledge		
	Element 6-3:	(4 Indicators)	6-3-1- Economical diversity in forest related
	Comfort and		communities
	satisfaction		6-3-2- Educational and training gained by forest
	of forest		related communities
	related		6-3-3- Employment rate in forest related
	communities		communities
			6-3-4- Number of low income people in forest
		(0.1.11)	related communities
	Element 6-4:	(3 Indicators)	6-4-1- Group (sector) which are satisfied from civil
	Effective and		society participation in SFM process
	suitable		6-4-2- Acceptance (follow up) of Law, Regulation
	decision		and management rules in related to SFM
	making		6-4-3- Percentage of forest area which designed
			(programmed), managed and implemented by
	Element 6-5:	(6 Indicators)	people participation 6-5-1- Coverage, real, replicate, level of
	Information	(o maicators)	confidence of collected data in related to the
	inionnation		confidence of conceled data in related to the

	for decision		forest
	making		6-5-2- Availability of forest related data to the
			people
			6-5-3- Investment in R&D and forest education
			and industrial wood production
			6-5-4- Number of new and updated standards and
			guidelines of forest management in related to the
			ecologic subjects
			6-5-5- Extension and usage of improved new
			technology
			6-5-6- Technology and new capacity to evaluate
			social-economic consequences of implementation
			of new technologies
	Element 6-6:	(6 Indicators)	6-6-1- Availability and usage of recreation facilities
	Recreation		6-6-2- Variable usage of forest in social level
	facilities		6-6-3- Area and percentage of forest which has
			been managed for public recreation and tourisms
			6-6-4- Number and type of facility in relation to
			the forest area and population which has been
			managed for public recreation and tourisms
			6-6-5- Number of visitors in relation to the forest
			area and population to the areas which has been
			managed for public recreation and tourisms
			6-6-6- Number and possibility of fishing and game
Criterion 7:		(9 Indicators)	7-1- Availabilities of policies, laws and suitable
Legal and			regulations in national and regional level
Institutional			7-2- Implementing laws in different levels and
condition			possibility of evaluations
			7-3- Availability of suitable institutions and
			instruments
			7-4- Economic and financial framework and
			instruments
			7-5- Social informative and advisory instruments
			7-6- Research and extension capacities
			7-7- Usage of traditional experiences, knowledge
			and technologies
			7-8- Transfer and usage of suitable
			(environmentally sound) technologies
			7-9- Capabilities of implementing , related
	4		international laws
7 Criteria	15 Elements	93 Indicators
