

Joint Session of the ECE Timber Committee and the FAO European Forestry Commission

Antalya, Turkey – 10-14 October 2011

**Report on FAO Climate Change Activities since the thirty-fifth session of
the European Forestry Commission**

Update on Global FAO activities

- **Stimulate regional cooperation.**
- **Mainstreaming climate change adaptation and mitigation in forest policies and programmes as an element of sustainable forest management.**
- **Support REDD+ development and implementation**
- **Facilitate exchange of experiences and information dissemination**
- **Enhance forestry content in cross-sectorial initiatives in climate change response**

Climate change and forests:

- **What is the best way to facilitate exchange of experience and learning at the European level?**
- **What is expected from FAO and ECE?**
- **What should be the FAO priorities for forests in climate change response?**
