**ECONOMIC COMMISSION FOR EUROPE**

COMMITTEE FOR TRADE, INDUSTRY AND  
ENTERPRISE DEVELOPMENT  
Ninth session, 23 – 27 May 2005  
Item 7.1 of the provisional agenda

**COOPERATION WITH OTHER INTERNATIONAL ORGANIZATIONS**

**DOCUMENT FOR INFORMATION**

Note by the secretariat

This document highlights ongoing cooperation with other organizations and recent developments. It endeavours to make as transparent as possible the framework within which the Committee and its subsidiary bodies cooperate with other organizations.

Because of the large number of organizations with which the Committee and its subsidiary bodies cooperate, for ease of reading we have presented the major part of this information in tabular format.

For further information on these cooperation activities and mechanisms, please e-mail: [trade@unece.org](mailto:trade@unece.org) or fax: +41-22 917 0037.

Previous related documentation: TRADE/2004/18.

**INTRODUCTION**

1. The United Nations Economic Commission for Europe (UNECE) enjoys well-structured cooperation and coordination with United Nations Headquarters and with other organizations within and outside the United Nations system.
2. In the current planning period (2004 to 2005), we are paying especial attention to strengthening cooperation with the other regional commissions of the United Nations, the United Nations Conference on Trade and Development (UNCTAD) and the World Trade Organization (WTO), to maintain an environment that fosters intergovernmental policy dialogue.

3. At the regional level, we are promoting further economic integration through studies and capacity-building activities such as seminars, workshops and advisory services. In addition, we are working to strengthen the policies and institutions of transition economies for implementing sustainable development.

4. We continue to encourage the business community and non-governmental organizations to take part in all aspects of our work.

### **HIGHLIGHTS OF COOPERATION 2004/2005**

5. UNECE signed a MoU with the Global Facilitation Partnership for Trade and Transport (GFP) in March 2005. UNECE is a core partner and Steering Committee member of the GFP, along with the World Bank, WCO, UNCTAD, UNIDO, OECD and IRU. The GFP promotes coordination between member organisations and the business community in implementing trade facilitation worldwide ([www.gfptt.org](http://www.gfptt.org)).

6. The revised UN Development Account Interregional project on Trade Facilitation was launched in January 2005. This involves all five regional commissions, with UNECLAC as the lead agency. UNECE has already commenced two joint activities under this project with UNECA and UNESCAP. A joint interregional conference with all five Regional Commissions will be held in Geneva in June 2005 – organised by UNECE.

7. The Regional Adviser on Trade Facilitation organized, in cooperation with the World Bank, the OSCE and the Georgian Government, a workshop on trade facilitation and transit in the South Caucasus Corridor Development for South Caucasus countries in Tbilisi, 18 – 19 May 2004 to progress the development of national transit strategies of the countries of the South Caucasus. UNECE also continues to collaborate with the World Bank project on Trade and Transport Facilitation in Southeast Europe using UNECE recommendations, standards and tools. More information on capacity-building activities of the Regional Adviser can be found in the report on Capacity Building and Implementation Activities (TRADE/2005/15).

8. Another organization that the Trade Facilitation Regional Adviser cooperates regularly with is the Stability Pact for South-Eastern Europe (SEE), and, particularly in the work of the Trade Liberalization and Facilitation Working Group and the e-SEE initiative. For example, he contributed to the work on establishing a free-trade zone in South East Europe, including the preparation of a policy paper, prepared an e-business strategy paper for the Western Balkans, and is currently involved in organizing a June 2005 regional Ministerial Meeting in SEE in preparation for the World Summit on the Information Society (WSIS).

9. The UNECE Working Party on Regulatory Harmonization and Standardization Policies (WP.6) has initiated cooperation with the Stability Pact Working Group on Trade Liberalization and Facilitation under the joint UNECE – Swedish International Development Agency (SIDA) project “South-East Europe Regulatory Project”. The project promotes good regulatory practices and sharing information on regulatory priorities in countries of the south-east European region with a view to identifying areas for future regulatory cooperation. Discussions are under way with SIDA to organize similar projects in other regions.

10. In the context of the Committee’s Multiplier Point Network’s promotional work, in the autumn of 2004, the UNECE signed a MoU with the World Trade Point Federation (WTPF). This is a worldwide network of trade facilitation centres serving to establish, facilitate and maintain trade contacts across borders. The UNECE and WTPF agreed to cooperate in promoting each other's activities, to encourage regular contacts between the WTPF and the relevant UNECE subsidiary bodies and to share contacts in

order to develop further their networks. Further information on WTPF can be found on their website at [www.wtpfed.org](http://www.wtpfed.org).

11. In the area of sustainable development, the UNECE Public – Private Partnership (PPP) Alliance of WP.5 held a Conference with UN-Habitat on the occasion of its Second World Urban Forum, Barcelona, Spain, 13 –18 September 2004. The Conference allowed delegations from countries outside the UNECE region to see the Alliance’s expertise in this important area. Useful contacts were made at the Conference on follow-up work with the Russian Federation and the EU among others.

12. In the area of industry and enterprise development, UNECE’s Working Party on Industry and Enterprise Development (WP.8) continued its cooperation with the Organization for Security and Co-operation in Europe. In November 2004, on the invitation of the Government of Kazakhstan, UNECE and the OSCE Centre in Almaty organized a Forum on “Public-Private Cooperation in Industrial Restructuring” in Almaty, Kazakhstan. The Forum developed recommendations to Governments.

### **COOPERATION WITH THE EUROPEAN COMMISSION**

13. The European Commission participates actively in the sessions of UNECE’s working parties 6, 7 and 8, and UN/CEFACT as well as in the Committee session.

14. The European Commission’s cooperation with UNECE in agricultural quality standards is based on European legislation (Council Regulation 2200/96 of 28 October 1996 concerning the standards and Commission Regulation 1148/2001 of 12 June 2001 on conformity checks). As a result of this policy UNECE and EU standards are closely harmonized.

### **COOPERATION WITH OTHER INTERNATIONAL ORGANIZATIONS**

15. The following two tables describe our current cooperation with other United Nations and other international bodies under the two subprogrammes of the Committee for Trade, Industry and Enterprise Development.
