Accreditation: Adding Value to
Supply Chains**

Developments

Developments

- The standard applicable to biobanks for the purposes of accreditation will be ISO 20387 *Biobanking – General requirements for biobanking*, to be used as a standalone standard.
- Conformity Assessment bodies are **no longer allowed** to issue non-accredited product certification certificates if they are accredited for that scope
- ILAC / IAF MoUs signed with:

- Dashboard
- Certification Bodies
- Standards
- Data Management
- Enquiries
- Accounts
- Users
- Settings
- IAF CertSearch Badge**

IAF CertSearch Badge

The IAF CertSearch Badge is a digital badge that demonstrates your organisation in an **Active IAF Accreditation Body Member**.

Those who click on the badge will be directed to your [profile page](#) on the IAF CertSearch Global register where they can view your IAF status. If your membership is longer valid the badge will not appear.

[Activate](#)

The Ministry of Industry, Investment, Trade and Digital Economy is responsible for the
