

PROPOSAL FOR A MODIFICATION TO DRAFT CORRIGENDUM 1
(TRANS/WP29/2005/81) TO DRAFT REGULATION ON HEATING SYSTEMS
(Heating system of vehicles)

Transmitted by the representative of the European Community

A. PROPOSAL

Annex 8,

Paragraph 1., amend to read:

"1. LPG HEATING SYSTEMS FOR ROAD USE **IN MOTOR VEHICLES**"

Paragraph 1.1.6.2., amend to read:

"1.1.6.2. no uncontrolled release due to an accidental **disconnection** can occur. Means shall be provided to stop the flow of LPG by installing a device directly after **or in** a cylinder or container mounted regulator or if the regulator is mounted remote from the cylinder or container, a device shall be installed directly before the hose or pipe from the cylinder or container and an additional device shall be installed **in, or** after the regulator."

Paragraph 2., amend to read:

"2. LPG HEATING SYSTEMS FOR STATIONARY USE ONLY **IN MOTOR VEHICLES AND THEIR TRAILERS**"

B. JUSTIFICATION

- For the sake of clarity, concerning the application of Annex 8 to caravans, it is necessary to amend the title of paragraphs 1 and 2.

-For the sake of clarity, paragraph 1.1.6.2 on how the safety device of the LPG installation shall operate in case of a rupture of the LPG gas pipe/hose, needs to be amended to specify that only a complete disconnection is considered.
