## **2007 G8 Summit**

- **From June 6 to 8, the G8 leaders met for their annual summit in Heiligendamm, Germany.**
- **Summit declaration on Growth and responsibility in the world economy, among other documents, was published at the G8 Summit.**

<http://www.g-8.de/Webs/G8/EN/G8Summit/g8-summit.html>

## The G8 Decisions concerning the IEA

- Move forward with implementing the Gleneagles and St. Petersburg Action Plans, thereby retaining and supporting the IEA's close involvement.
- Take forward the concrete recommendations on energy efficiency presented by the IEA and consider drawing on these when preparing national energy efficiency plans.
- Ask the IEA to continue to ... make proposals for effective international co-operation.
- Invite the IEA ... to increase the dialogue with the major emerging economies on more efficient energy policies and develop guidance mechanisms.

## **IEA concrete recommendations**

- **12 recommendations to the 2007 G8**
- **2 recommendations on transport sector**
- **Those are:**
  - **Mandatory Fuel Efficiency Standards for Light-duty Vehicles**
  - **Implementing Measures for Deployment of Fuel Efficient Tyres**

[http://www.iea.org/G8/docs/recommendations\\_heiligendamm.pdf](http://www.iea.org/G8/docs/recommendations_heiligendamm.pdf)

# Implementing Measures for Deployment of Fuel Efficient Tyres

- Governments should adopt new international test procedures for measuring the rolling resistance of tyres to set maximum rolling resistance limits and for road-vehicle tyre labeling.
- All governments, in cooperation with international organisations including **UNECE**, should make the fitting of tyre-pressure monitoring systems on new road vehicles mandatory.

[http://www.iea.org/G8/docs/final\\_recommendations\\_heiligendamm.pdf](http://www.iea.org/G8/docs/final_recommendations_heiligendamm.pdf)

## The G8 Decisions concerning Transport

- Monitor the implementation of the necessary measures and discuss progress at two-year intervals during the Environmentally Friendly Vehicles Conference the results of which shall be reported to G8-leaders,
- ...

## IEA's Activities towards the 2008 G8 Summit

- Workshop on Fuel efficiency for HDVs Standards and Other Policy instrument was held on 21-22 June with kind contributions from various parties including European Community, India and Japan.  
[http://www.iea.org/Textbase/work/workshopdetail.asp?WS\\_ID=306](http://www.iea.org/Textbase/work/workshopdetail.asp?WS_ID=306)
- Workshop on eco-driving will be held in Paris on 22-23 November.

Thank you for your attention!
