

Informal groups of the World Forum WP.29 and its subsidiary Working Parties

(Note by the secretariat)

The table below contains a list of the current informal groups of WP.29 and its subsidiary Working Parties. Some of these informal groups have completed their tasks, but have never officially discontinued by WP.29 or by the GR. WP.29/AC.2 proposes that all the main bodies revise their informal groups and propose to discontinue those who are not actives. WP.29/AC.2 also proposes that when a new informal group is created a limit date for the mandate of the informal group shall be established.
