

**Proposal for draft Corrigendum to the 06 series of amendment to  
Regulation No. 16 (Safety belts)**

**Document ECE/TRANS/WP29/2008/106**

A. PROPOSAL

Paragraph 15.2.20., amend to read:

"15.2.20. Even after the date of entry into force of the 06 series of amendments, approvals of the components and separate technical units to the preceding series of amendments to the Regulation shall remain valid and Contracting Parties applying the Regulation shall continue to accept them, **and Contracting Parties may continue to issue extensions of approvals to the preceding series of amendments.**"

B. JUSTIFICATION

The new requirements of the 06 series of amendments do not affect the restraint systems as components. In the paragraph 15.2.20. should also be included the possibility to grant extensions of approvals to preceding series of amendments.
