Informal document No. GRB-51-06
(51th GRB, 15-17 February 2010
agenda item 2)

**India's comments on proposal for amendments to ECE Regulation No. 28
(Audible Warning Devices) (Ref. ECE/TRANS/WP.29/GRB/2010/2)**

India's opinion is that the Audible Warning Devices conforming to the proposed conditions will have a different performance level in the installed conditions (Clause no. 14 of ECE Regulation No. 28.). Therefore, India proposes that this amendment (ECE/TRANS/WP.29/GRB/2010/2) should be considered only after the effect of noise levels in the installed conditions on the vehicles is evaluated.
