Vice Ministry of Transportation Management Undersecretary of Land and Rail Transportation

Office No - MTOP-STTF-14-92-OF Quito, D.M., 10 March 2014

Subject: Request for WP.29 written support on the application of the United Nations Regulations and GTRs and to brands that participate in WP.29

Engineer
Juan Ramos Garcia
Secretary
World Forum for the Harmonization of Vehicle Regulations (WP.29)

It is a pleasure to inform you that our country is finalizing Regulation 034 "Minimal elements in automotive vehicles" that includes UN Regulations and GTRs for its application in the 21 devices that the document covers.

However, it is important to me to show that we have faced a variety of complaints and confrontational positions with respect to the application of the UN Regulations and GTRs in our Ecuadorean market, such as exclusive norms of acceptance whose disadvantage is in administrative differences between self-certification and type approvals.

Considering that the Government of Ecuador lacks funds to control a system of self-certification and does not have the legal basis for applying this system which permits rapid corrective action in the case of situations which are not suitable to the technical requirements, it welcomed the UN Regulations that are provided in the administrative type approval process.

Also so you are aware, other points that caused reactions and that have occasioned major claims were the time of entrance into force of each of the UN Regulations and GTRs included in Regulation 034, as the automotive sector players have petitioned to extend deadlines.

Taking into account the issues mentioned above, I am requesting to you that across your representation you provide a positive message from WP.29 and your key delegations that can support this project that is being undertaken by Ecuador and in the actions that they can do to support the decision of considering UN Regulations and GTRs, we request that the industry and other governments note the great effort that our country is making, to which I reiterate that undoubtedly your support in these times would be highly beneficial.

The reaction of the local brands of vehicle manufacturers against the application of the UN Regulations and GTRs has been huge. It would be important to have the vehicle manufacturer's support for the type approval process from the general headquarters of vehicle manufacturers to provide information for the type approval purposes.

T - Uniform Provisions Concerning the Approval of Front and Rear Position Lamps, Stop- Lamps And End-Outline Marker Lamps for Motor Vehicles (Except Motor Cycles) and their Trailers 13 - Uniform Provisions Concerning the Approval of Vehicles of Categories M, N and O with Regard to Braking 13-H - Uniform Provisions Concerning the Approval of Passenger Cars with Regard to Braking 14 - Uniform Provisions Concerning the Approval of Vehicles with Regard to Safety-Belt Anchorages,
