### 2. Programme of Work: Taking Stock of National Legislation

#### (a) **Sign to communicate the need to crash through gates (barriers) by a vehicle when trapped at a level crossing**

The Group of Experts agreed at its fifteenth session that a sign to crash through gates (barriers) should be developed, preferably as a G-section indication sign, following the approach of emergency exit sign (G, 23). Experts were requested to send their suggestions for the crash-through-gates sign to the secretariat, so they can be consolidated and considered at the current session.

The representative of Forschungsgesellschaft Strasse-Schiene-Verkehr (FSV) is expected to provide updates and expand on his earlier presentation on this sign.

Following the consideration of possible options, the Group of Experts is expected to conclude on the crash-through-gates sign.

#### (b) **Review of recommendations on A through F signs**

The Group of Experts is invited to review its recommendations made at earlier sessions for A through F signs. This review is to be facilitated through Informal document No. 4 (February 2018) which lists issues formulated on the basis of responses to ECE/TRANS/WP.1/GE.2/2018/1, section A through F. At the current session the Group of Experts will start from point 40 of the document.

The Group of Experts will be further invited to discuss comments to ECE/TRANS/WP.1/GE.2/2018/4 suggesting amendments to Annexes 1 and 3 of the convention. Informal document No. 1—consolidating comments from experts—is to facilitate this discussion. Among other comments, the secretariat's proposal to change the sign name coding should be addressed.

The Group of Experts is also expected to conclude on the depiction of symbols for motorcycle and moped.

Finally, the Group of Experts is invited to agree on its advanced version of the final report on the review of the convention's signs to be submitted to its parent body – the Global Forum

for Road Traffic Safety (WP.1) – at its seventy-seventh session taking place from 18 to 21 September 2018 to seek preliminary comments and feedback.

FSV, following the request at the fifteenth session, is expected to submit Informal document No. 2 on symbols used on additional panels for hearing and visually impaired.
