

Proposal for a corrigendum to ECE/TRANS/WP.29/2011/108

I. Proposal

Paragraphs 2.20. and 2.21. should be deleted.

Paragraphs 17.11.5. amend to read:

"17.11.5. Vehicles with more than one fuel system shall have a fuel selection system."

Paragraph 17.11.6. should be deleted.

II. Justification

The definitions and provisions in Regulation No. 67 should in general be focussed on safety aspects. Definitions of vehicles related to their type of fuel are already existing in Regulation No 83. In order to avoid conflicting definitions, the GRPE informal group on Gaseous Fuelled Vehicles (GFV) proposes to delete all the emission related definitions in Regulation No. 67 by deleting the paragraphs 2.20, 2.21 and 17.11.6 and amending paragraph 17.11.5.
