NOTE : The Working Party on Transport Statistics, at its fiftieth session, asked the secretariat to convene an Ad Hoc Expert Group on Road Traffic Accident Statistics (TRANS/WP.6/137, paras. 40-45). The objective of the meeting is to continue work toward the finalization of definitions on road traffic accidents, begun in 1999 by the IWG Task Force on Definitions on Road Traffic Accidents (9 December 1998, Paris). These definitions are intended for publication in the forthcoming third edition of the Glossary for Transport Statistics. In addition, the Ad Hoc Expert Group is asked to review the questionnaire used by the UN/ECE in collecting data from its member countries for the annual publication of Road Traffic Accident Statistics in Europe and North America (RAS).

Agenda item 1 : Opening of the Meeting

Agenda item 2 : Election of Chairperson

Agenda item 3 : Summary of main findings of IWG Task Force on Definitions in Road Traffic Accidents (9 December 1999, Paris) (Report contained in TRANS/WP.6/1999/4)

Agenda item 4 : Consideration of additional definitions on road traffic accidents

Agenda item 5 : Inputs from national Governments and International Organizations  
(EC/CARE +, BAST, IRTAD, etc.)

Agenda item 6 : Consideration of proposed modifications to RAS Questionnaire  
(used for annual ECE publication of Statistics of Road Traffic Accidents in Europe and North America)  
(document TRANS/WP.6/1999/5)

Agenda item 7 : Other business

Agenda item 8 : Close of Meeting
