Nomination of Pierre Chantrel to the Compliance Committee of the Protocol on Water and Health

Dear Mr Mamadzhonov

We are happy to nominate Mr Pierre Chantrel as a candidate for the Compliance Committee of the Protocol on Water and Health. Pierre Chantrel would be a new member of this Committee and HAS mentioned his interest in this assignment. He has been educated in Environmental Health as well as in Environmental and Sanitary Engineering.

Mr Chantrel career has been associated with the Ministry of Health of France since 1992. His expertise has been recognised in water legislative and institutional framework. He has also identified and elaborate projects for the preservation and improvement of drinking water quality, preservation of water resources, improvement of Ministries, institutions and operators capabilities in administrative, financial and technical water management; He has also supervised projects for transposition and implementation of the European water Directives.

We are sure that Pierre Chantrel is well qualified to pursue the work undertaken in the Compliance Committee of the Protocol. Please find attached the long version of his Curriculum vitae.

I look forward to meeting you next week in Bonn and at the third Meeting of the Parties in Oslo.

Kind regards

Food Safety Division  
Senior Drinking Water Regulator

Pierre Studer

### Work experience

**June 2012 – August 2013: Ministry of Agriculture of Croatia**

**Conducting EU project on capacity building for the implementation of the Directive on pollution caused by certain dangerous substances discharged into the aquatic environment and the Water Framework Directive:**

- Institutional assessment and reinforcement of water management organizational and technical capabilities,
- water quality monitoring on dangerous substances,
- training programme for the staff of the Central Laboratory,
- building partnership with municipalities and industries in water policies implementation in view of achievement of good ecological and good chemical status of water bodies.

The partners were the French Ministry of Ecology, Sustainable Development and Energy and the Austrian Environment Agency. The activities involved 30 French and Austrian specialists in water management and analytical chemistry.

**2000-2012: Deputy General Manager - International Office for Water (IOW) PARIS,**

- **Expertise** in water legislative and institutional framework, drinking water, waste water management, integrated water resources management, monitoring and information systems, information to the stakeholders and to the Public;
- **Identification, and elaboration** of projects for the preservation and improvement of drinking water quality, preservation of water resources, improvement of Ministries, institutions and operators capabilities in administrative, financial and technical water management;
- **Supervision of institutional and technical assistance projects** for transposition and implementation of the European water Directives.

**1992-2000: Ministry of Health: Head of environmental-health division Region Centre,**

- environmental-health regulations and policies: water, hospital wastes and solid waste from health care, urban and rural hygiene, noise pollution, accidental pollutions, epidemiology) at the regional level;
- member of the River Basin Committee and board member of the Loire-Brittany Water Agency: River basin management plans, programme of measures, data management, prevention of hazards and reliability of water supply, long term protection measures for ground and surface waters.

**1988-1992: Ministry of Environment, Housing and Urbanism - ABIDJAN, Ivory Coast**

Elaboration and supervision of environment and development programmes financed by the FAC (French Aid and Cooperation fund) and the FED (European Development Fund) : water supply, sanitation, low cost sanitation, solid waste elimination, municipal infrastructures favouring hygiene by friendly environmental techniques and materials, training programmes for staff, local elected and public awareness raising on health and environmental issues.

Counsellor to the National Environmental Commission.

**1985-1988: Ministry of Maritime Affairs - ABIDJAN, Ivory Coast**

River, lagoon and coastal waters protection (water quality, protection against urban, industrial and harbour pollution, lagoon traffic and “green pollution” due to proliferation of water hyacinth on rivers and lagoons).

**1975-1985: Ministry of Public Health - Health Regional Directorate - Orleans,**

Implementation of regulations and environmental-health policies in the region

**1974: Ministry of Public Works and Housing - Rennes, civil engineer**

**1973-1974: Volunteer as sanitary engineer in Reunion Island**

Drinking water, sanitation, low cost sanitation (latrines), programmes against malaria and intestinal parasitosis.
