

Background and purpose of the Collection of good practices

Objectives of the workshop

Workshop on collecting good practices
on target setting and reporting
Geneva, 8-9 March 2016

Purpose of the Collection of good practices

- * Main purpose: serve as a set of concrete recommendations for countries that are in process of setting, revising or implementing their targets as well as reporting
- * Complementing the Target Setting Guidelines by focusing on how they have been implemented in practice (good but also bad practices)
- * Lessons learned under each step of target setting process are illustrated in the form of case studies from Parties and other countries
- * **The final document has to be useful to the Protocol Parties**

Background and process

- * Task Force on Target Setting and Reporting (8th meeting) decided to collect good practices and lessons learned from Parties and other States in order to publish them for the fourth session of the Meeting of the Parties (14–16 November 2016).
- * A call for good practices and lessons learned launched at the 8th Working Group on Water and Health
- * Small drafting group was established to review and compile inputs, with help of a consultant – prepared the current draft
- * Workshop on collecting good practices on target setting and reporting (Geneva, 8 (afternoon) – 9 March 2016)

Objectives of the workshop

- * • Review good practices and lessons learned that have been already identified and gather additional experiences
- * • Detect gaps and needs for including additional good practices and lessons learned
- * • Examine submitted case studies and suggest and foster the development of additional ones

Organization of work

- * Presentation of 2 case studies illustrating 2 steps under each session
- * Group work – discussion of the lessons learned and identification of additional ones – moderators with help of the secretariat
- * Reporting back on the lessons learned identified and case studies suggested
