

Linkages between Protocol target areas and programme of work and 2030 Agenda for Sustainable Development

Nataliya Nikiforova, UNECE secretariat

Workshop on collection of good practices and lessons learned on target setting and reporting
Geneva, 8-9 March 2016

The 2030 Agenda and the Protocol on Water and Health: coherence of objectives

Examples of interlinkages (1)

Target areas (art 6.2)	SDGs targets	Programme area
<p>(d) The area of territory, or the population sizes or proportions, which should be served by collective systems of sanitation or where sanitation by other means should be improved</p>	<p>Goal 6: Ensure availability and sustainable management of water and sanitation for all 6.2. By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations</p> <p>Goal 1: End poverty in all its forms everywhere 1.4. By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance</p> <p>Goal 4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all 4.a. Build and upgrade education facilities that are child, disability and gender sensitive and provide safe, non-violent, inclusive and effective learning environments for all</p> <p>Goal 11: Make cities inclusive, safe, resilient and sustainable 11.1 By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums</p>	<p>Equitable access</p> <p>Safe and efficient management of water supply and sanitation systems</p> <p>WASH in schools</p> <p>Small-scale water supplies and sanitation</p>

Examples of interlinkages (2)

Target areas (art 6.2)	SDGs targets	Programme area
<p>(f) The application of recognized good practice to the management of water supply and sanitation, including the protection of waters used as sources for drinking water</p>	<p>Goal 6: Ensure availability and sustainable management of water and sanitation for all</p> <p>6.3. By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally</p> <p>6.4. By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity</p> <p>6.5. By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate</p> <p>6.6. By 2020, protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes</p>	<p>Safe and efficient management of water supply and sanitation systems</p> <p>Future work on sanitation?</p>

Examples of interlinkages (3)

Target areas (art 6.2)	SDGs targets	Programme area
<p>(g) The occurrence of discharges of: (i) Untreated waste water; and (ii) Untreated storm water overflows from waste-water collection systems to waters within the scope of this Protocol</p>	<p>Goal 6: Ensure availability and sustainable management of water and sanitation for all 6.3. By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally</p> <p>Goal 12: Ensure sustainable consumption and production patterns 12.4. By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment</p>	<p>Safe and efficient management of water supply and sanitation systems</p> <p>Future work on sanitation?</p>

Examples of targets?

The objective of the group work is to identify examples of targets:

- * under all Protocol target areas**
- * that would support the implementation of 2030 Agenda**
- * and align with the programme of work of the Protocol**
