# Wind farm projects

## Ostsee - Offshore-Windparks

BSH / M5212 - Stand: 30.06.2004

Datengrundlagen:  
 Beauftragte Offshore-Windparks i.d. 12-Smellezone: MLP S-H, Ministerium für Arbeit und Soz. B-M-V  
 Weitere Offshore-Windparks: Bezirksverwaltg. Kalmar (Schweden)

# Espoo applications

- German project January 2002
- Swedish project I (Eurowind) March 2002
- Swedish project II (Sweden Offshore) March 2003
- Danish Screening of possible areas for wind farms at sea August 2003

# Espoo procedure for the Swedish projects

## Swedish project I (Eurowind)

- Informal meeting in Malmö: May 2002
- Notification: Denmark in May 2003 (in Swedish)  
Germany in September 2003 (translated to English  
an German)
- Withdrawal: July 2004

## Swedish project II (Sweden Offshore)

- Notification: March 2003
- EIA and application: May 2005
- Decision: Not yet

# Observations

- **No joint project**
- **The projects in the three countries might cause cumulative and interactive effects**
- **No formal procedure for treating projects that are dependant of each other**

# Conclusions

- **Exchange of information in all stages is essential**
- **Common requirements on EIA (OSPAR) facilitates procedure**
- **Exchange of legal requirements (conditions and control) is essential**
- **Interests other than environmental are important for projects at sea (shipping, fishing, defence etc) = no Espoo responsibility**
