

Tools for climate change adaptation in a transboundary context

Introduction to session 4

Jos Timmerman

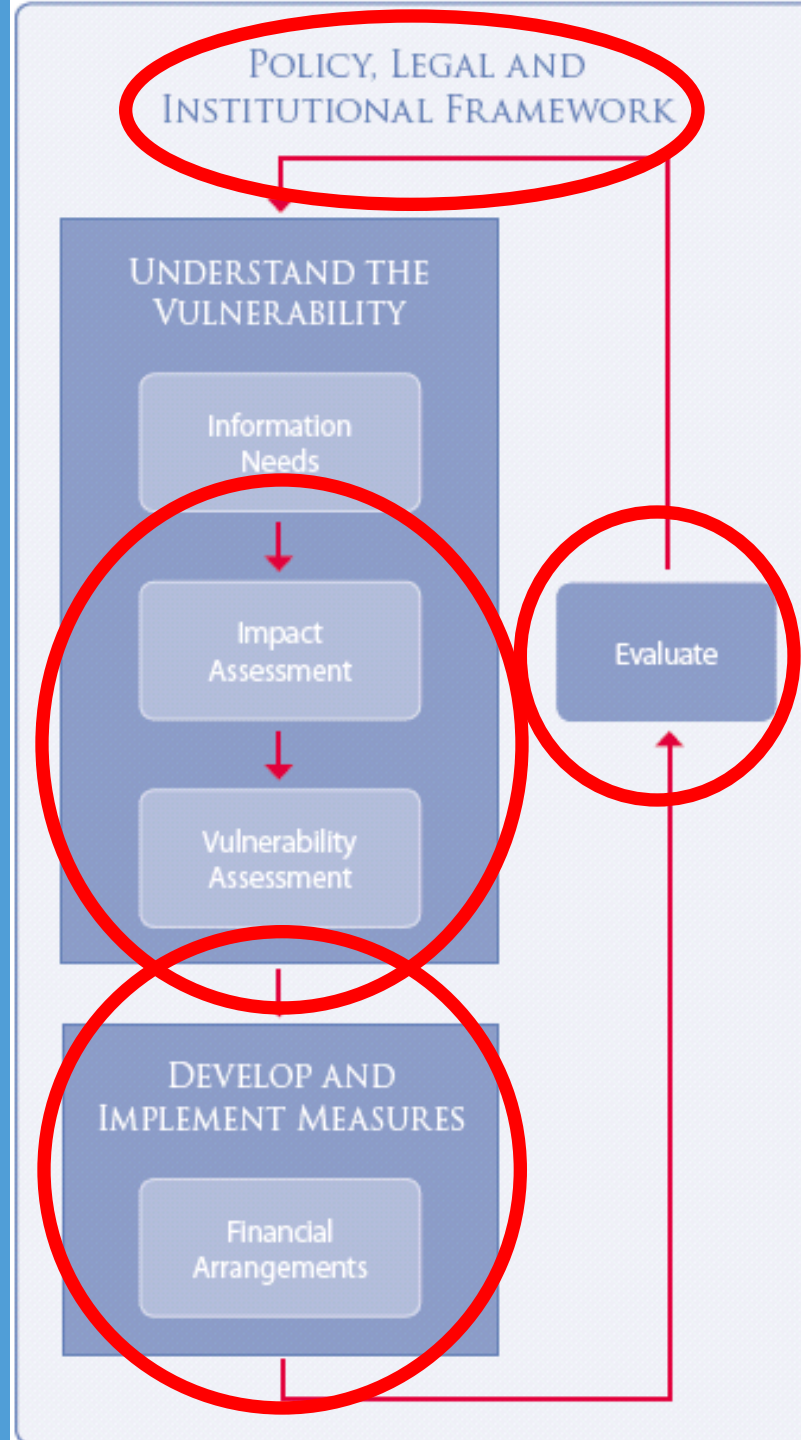

Alterra Wageningen UR

Tools in the process to develop an adaptation strategy

Goals:

- Increase knowledge on tools
- Establish contacts with other experts

Questions to be answered

Market place:

- Would the tool be useful in your situation? Why (not)?
- What are the potentials and limitations of the tool?

Plenary:

- What characteristics make tools useful in transboundary adaptation?
- Do we have enough tools to cover the whole process?

Thank you for
your attention
