

JEG

Joint Expert Group to ECE Water Convention and Industrial Accident Convention
Group led by HU and RO

JEG Strategy adopted - Demand driven activities only

Guidance and checklist on harmonised contingency planning for accidents in transboundary context

1st draft prepared – improvement needed (*OECD guiding principles on emergency preparedness might be used*) – but insufficient expertise in JEG

Potential consultant has been identified - funds have to be raised

Hungary and the Secretariats jointly looking for solutions

If funds available document can be prepared and discussed by JEG during 2014

HU ready to host the next JEG meeting

Document be submitted to the next MoP in 2015

Pilote projects to test the checklist ?
