UNIFORM LIST of PRODUCTS, for which mandatory requirements within the Customs Union are established

61 objects of technical regulation

on basis of EC New Approach Directives

- low voltage equipment
- lifts
- machinery and equipment
- construction products
- toys
- personal protective equipment
- medical devices
- appliances burning gaseous fuels
- equipment operating under excessive pressure

on basis of EC Old Approach Directives

- agricultural techniques
- foods
- chemical products
- perfumes and cosmetics

others

- motor roads
- furniture
- synthetic detergents
- alcoholic products
- grains
- coal and derived products

DEVELOPMENT of the CUSTOMS UNION TECHNICAL REGULATIONS

Development schedule of the first priority
technical regulations of the **Customs Union**

On the basis of EU Directives and Regulations

DEVELOPMENT of the CUSTOMS UNION TECHNICAL REGULATIONS

14 TRs CU are adopted, shall be entered into force:

15.02.2012

- On safety of fireworks (*Directive 2007/23/EC*)

01.07.2012

- On safety of low voltage equipment (*Directive 2006/95/EC*)
- On safety of toys (*Directive 2009/48/EC*)
- On safety of products intended for children and adolescents
- On safety of perfumes and cosmetics (*Directive 76/768/EEC*)
- On safety of packages (*Directive 94/62/EC*)

31.12.2012

- On requirements for automobile and aviation gasoline, diesel and marine fuels, jet fuels and heating oils (*Directive 98/70/EC*)

15.02.2013

- On safety of machinery and equipment (*Directive 2006/42/EC*)
- On safety of equipment for operation in explosive atmospheres (*Directive 94/9/EC*)

18.04.2013

- On safety of lifts (*Directive 95/16/EC*)

02.08.2014

- On safety of railway rolling stock
- On safety of high-speed railway transport
- On safety of railway infrastructure

15.02.2015

- On safety of motor roads

DEVELOPMENT of the CUSTOMS UNION TECHNICAL REGULATIONS

Adopted technical regulations of the Customs Union

14 TRs CU

**Draft technical regulations of the Customs Union,
presented for intrastate approval**

11 TRs CU

**Draft technical regulations of the Customs Union,
subjected to public discussion**

14 TRs CU

**Draft technical regulations of the Customs Union,
presented for public discussion**

6 TRs CU

Model of technical regulation of food products in the Customs Union

Model of technical regulation of chemical products in the Customs Union

On safety of chemical products

Materials, coming in contact with alimentary media

Household
chemical
products

Paintwork
materials

Petrol, diesel fuels and
fuel oils

...

**Graphic representation of the single mark
for products circulation
in the market of the Customs Union member-states**

EAC

It stands for Eurasian Conformity

Ascertains that products bearing this mark have undergone all conformity assessment (attestation) procedures specified in technical regulations of the Customs Union and meet the requirements of all applicable to these products technical regulations of the Customs Union

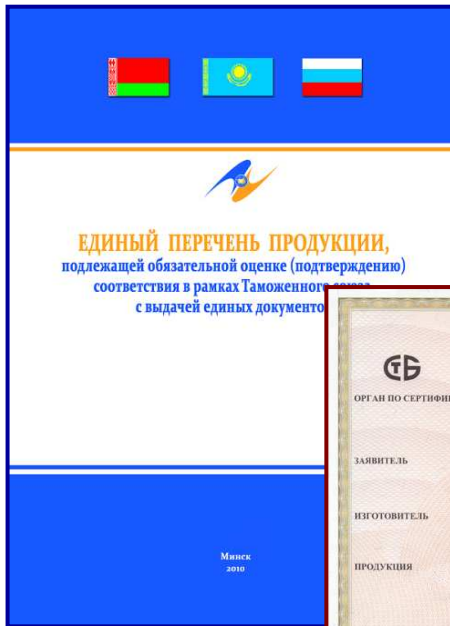

Decision of the Customs Union Commission on adoption of the Customs Union technical regulation

ESTABLISHES

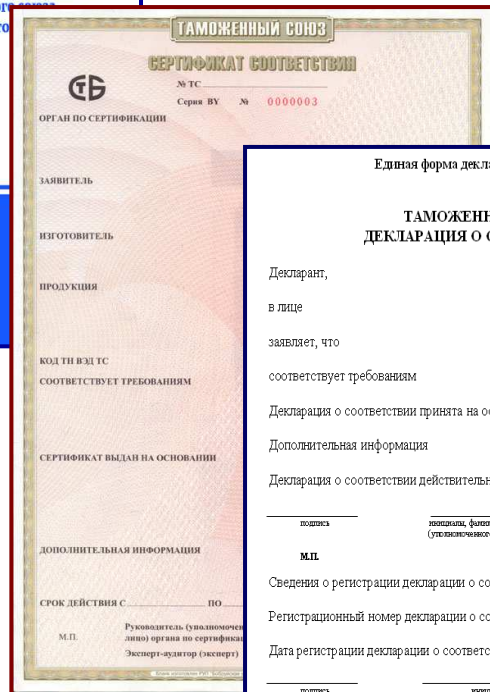

- ✓ **Date of entry into force**
- ✓ **List of standards for requirements implementation**
- ✓ **List of standards for tests**
- ✓ **Rules for transition period:**
 - **use of earlier issued documents on conformity attestation**
 - **application of procedures for the measurements of safety factors, for which there are no standards**

Prior the entry into force of the Customs Union technical regulations

- Types of products subject to mandatory conformity assessment (attestation)
 - Mandatory requirements (*standards of the member-states and international requirements*)

Единая форма декларации о соответствии**

- Forms of mandatory conformity assessment (*certification and declaration*)
 - Common Certificates
 - Common Declarations of Conformity

Uniform list of products subject to mandatory conformity assessment (attestation) within the Customs Union with issuance of uniform documents

- LOW VOLTAGE EQUIPMENT
- HOUSHOLD RADIOELECTRONICS
- LIGHTING PRODUCTS
- HOUSHOLD DEVICES OPERATING ON SOLID, LIQUID AND GAS FUELS
- MEANS OF COMPUTER TECHNOLOGY
- PRODUCTS FOR ROAD SECTOR APPLICATIONS
- AGRICULTURAL MACHINERY
- PRODUCTS OF LIGHT INDUSTRY
- TOYS AND PRODUCTS FOR CHILDREN
- TOBACCO PRODUCTS
- WATCHES
- SMALL CRAFTS
- FURNITURE
- GLASS TARE
- MEANS OF PACKING
- HOUSEWARE
- FEED FOR ANIMALS, BIRDS AND FISH
- PERSONAL PROTECTION MEANS
- PETROLEUM PRODUCTS
- DETERGENTS
- SANITARY CERAMICS
- FINISHED FOODS

*Approved by CUC Decision
of 7 April 2011 No. 620 (new version)*

Previously issued on single form certificates of conformity and adopted declarations of conformity for products, for which the form of conformity attestation has been changed in the Uniform list, are valid till the expiry date without re-registration. Changes in labeling related to the conformity marking for such products are not required

DEVELOPMENT AND USE OF COMMON STANDARDS FOR THE PURPOSES OF TECHNICAL REGULATIONS

Development of common standards, related to the technical regulations of the Customs Union

Use of common standards for all the Customs Union member-states –

GOST

- **For the purpose of meeting** the requirements of the Customs Union technical regulation in the result of voluntary application
- **For the purpose of using and fulfilling** the requirements of the Customs Union technical regulation and performing conformity assessment (attestation) of products

During transitional period (prior adoption of GOSTs) national (governmental) standards of the Customs Union member-states can be used:

- **GOST R**
- **STB**
- **ST RK**

DEVELOPMENT of COMMON STANDARDS, INTERRELATED with the CUSTOMS UNION TECHNICAL REGULATIONS

Electrotechnical products

TR Safety of low
voltage equipment

TR Electromagnetic
compatibility of technical
means

Draft list of standards **(439)**
85% harmonization

Necessary to develop
300 GOST based on ISO, IEC, EN,
40% from them based on ISO, IEC, EN
new versions

Toys

TR Safety of toys

Draft list of standards **(9)**
90% harmonization

Necessary to develop
12 GOST based on ISO, IEC, EN,
50% from them based on ISO, IEC, EN
new versions

In addition to prepare
119 documents on the test methods
of hygienic indicators

DEVELOPMENT AND USE OF COMMON STANDARDS FOR THE PURPOSES OF TECHNICAL REGULATIONS

- ✓ **Target programs** for preparation of intergovernmental **standards** for products, for which the technical regulations of the Customs Union are in progress
- ✓ Inclusion of standards into **The Plan of EASC intergovernmental standardization**
- ✓ **Development** of intergovernmental **standards**

Implementation of European guidelines

- to put into force mandatory at national level in every member-state of the Customs Union in a single determined deadline
- to cancel all national (governmental) standards that are in conflict with intergovernmental standards
- to notify of the beginning of development of national (governmental) standards and to cease their development when deciding on development of intergovernmental standards for a given object of standardization

15 октября в Москве состоялась встреча глав правительств государств-членов Таможенного союза

28.10.2010

Председатель Правительства Российской Федерации В.В.Путин, Премьер-министр Республики Беларусь С.С.Сидорский и Премьер-министр Республики Казахстан К.К.Маринов по итогам переговоров провели совместную пресс-конференцию.

Выступление Председателя Правительства РФ В.В.Путина:
Уважаемые дамы и господа! Сегодня у нас с коллегами из Беларуси и Казахстана была очень насыщенная, содержательная повестка дня. Состоялся заседание Совета Министров Союзного государства и встреча глав правительств стран-участниц Таможенного союза. Оба мероприятия прошли в деловом, конструктивном ключе. Мы рассмотрели проблематику торгового, экономического, гуманитарного сотрудничества. И конечно, основной акцент был сделан на нашем главном интеграционном проекте – речь идет о формировании единого экономического пространства.

Союзам недавно, 10 октября, исполнилось 10 лет Евразийскому экономическому сообществу. Россия, Беларусь, Казахстан образуют интеграционное ядро ЕвразЭС и уже перешли к работе в рамках
