# SDGs Progress Measurement in Ukraine Based on UNESCAP Methodology

## In 2017 Sustainable Development Goals: Ukraine National baseline Report was adopted, where global SDG targets were nationalized

Decree No 722/2019 of the President of Ukraine dated September 30, 2019 on Sustainable Development Goals of Ukraine for the period till 2030 foresees the SDGs shall permeate programme documents, draft legal texts to ensure balanced economic, social and ecology domains of Ukraine's sustainable development.

Regulation # 686-p of the Cabinet of Ministers of Ukraine dated August 21, 2019 on the issue concerning data collection to monitor the SDGs implementation approves the nationalized list of SDG indicators and empowers the State Statistics Service of Ukraine with ensuring collection and making these data public, as well as with coordinating activities to develop metadata under the indicators.

The State Statistics Service of Ukraine is the coordinator of data collection for monitoring of the SDGs

Recently Monitoring report Sustainable Development Goals Ukraine-2020 has been prepared by Statistics Ukraine supported by the United Nations in Ukraine and UNICEF Ukraine highlighting available information for 2015-2019 according to Regulation # 686-p of the Cabinet of Ministers of Ukraine and their target values for 2020

In 2020 the State Statistics Service of Ukraine jointly with VoxUkraine supported by UNDP Ukraine made a pilot of measuring the SDGs progress in Ukraine using UNESCAP's methodology and on the basis of the SDGs Voluntary National Review.

In case with Ukraine the progress was measured for 110 out of 183 national indicators for SDGs approved by the regulation of the Cabinet of Ministers of Ukraine dated 21.08.2019 #686-p "Issue of Collecting Data for Monitoring of the Sustainable Development Goals Implementation" having the target values for 2030.

## Ukraine - Dashboard

Two principal measures were used to assess Ukraine's progress towards the SDGs: Current Status Index and Anticipated Progress Index. The indices answer two different questions: how much progress has been made since 2015? How likely will the targets be achieved by 2030?

Anticipated Progress Index (dashboard) in Ukraine is a unique tool to show where the acceleration is needed to reach the target (marked with yellow), maintaining the pace (green) or reverse trend (red) is needed to achieve the target, as well as what targets cannot be measured, as grey color means missing data.

- REVERSE trend

Select Goal

## On-track indicators

1.1.1	Share of the population whose average per capita equivalent total expenditure is lower than the actual (estimated) subsistence minimum, %
1.1.2	Share of individuals whose daily consumption is below USD 5.05 PPP, %
1.2.1	Share of the poor population covered by state social support in the total number of poor people, %
1.3.2	Share of food expenditure in total household spending, %
2.1.5	Consumption of fruit per capita, kg/year
2.2.1	Labour productivity in agriculture, USD 1,000s per employee
2.2.2	The index of agricultural production, %
2.3.1	The index of food production, %
2.4.1	The consumer price index for food, %

## Ukraine - Expected Gap

3.1.1	Number of cases of maternal mortality, per 100,000 live births
3.2.1	Mortality of children under 5, cases per 1,000 live births
3.3.2	Number of patients diagnosed with active tuberculosis for the first time, per 100,000 persons
3.4.2	Number of deaths from cerebrovascular disease at the age of 30-59, per 100,000 women of corresponding age
3.4.3	Number of deaths from malignant breast tumours at the age of 30-59, per 100,000 women of appropriate age
3.4.4	Number of deaths from malignant cervical tumours at the age of 30-59, per 100,000 women of appropriate age
3.5.2	Probability of dying at the age of 20-64, women
3.6.1	Number of deaths from road traffic accidents, per 100,000 persons
3.7.1	Immunization rate of population according to the Preventive Vaccination Calendar by designated six age groups for prevention of ten infectious diseases, %
3.8.2	Share of men who smoke at the age of 16-29, %
4.5.2	Share of the population who reported using the Internet over the past 12 months, %
4.7.1	Share of rural full-time secondary schools with Internet access, %
4.7.2	Share of rural full-time secondary schools, where computers are used in the educational process, %
5.1.1	Number of normative acts which were revised or adopted to provide men and women with equal rights and opportunities and to prevent discrimination against women and girls, units
5.2.2	Number of complaints regarding domestic violence, thousands
	Share of women among the

5.4.1	Members of Parliament of Ukraine, %
5.5.1	Birth rate under the age of 20, per 1,000 women aged 15-19
5.6.1	Ratio of average wages for men and women, %
6.1.4	Share of the rural population with access to centralized water supply, %
6.1.5	Share of the urban population with access to centralized water supply, %
6.2.2	Share of the urban population with access to a centralized water drain, %
6.4.1	Water content of GDP, cubic metres of water used per UAH 1,000 of GDP (actual prices)
6.4.2	Current water content of GDP to 2015 level, %
7.2.2	Share of one supplier of the nuclear fuel market, %
8.1.1	GDP volume index, %
8.1.4	Ukraine's position as rated by the Global Innovation Index
8.3.1	Employment rate among those aged 20-64, %
8.4.1	Share of youth not in employment, education or professional training in the total number of those aged 15-24, %
8.6.2	Share of value added against production costs of SMEs, % of total value added against production costs
8.6.3	Ukraine's position in the rating of Doing Business
9.1.2	Volume of transported goods, millions of tonnes
9.2.1	Share of electric transport in domestic traffic, %
9.6.1	Population coverage with Internet services, subscribers per 100 persons
11.2.1	Share of regions that have approved and implemented regional development strategies and action plans for their implementation developed with

12.2.1	Share of post-harvest losses in the total production of cereals, %
12.2.2	Share of post-harvest losses in overall production of vegetables and melons, %
16.2.6	Percentage of funding of regional counter-trafficking programs from relevant local budgets
16.3.1	Level of public confidence in the court, %
16.5.1	Number of weapons seized (criminal proceedings with completed pre-trial investigation for the past 12 months, units)
