# 5th Workshop on Statistics for SDGs

## Regional reporting and data flow

### Online meeting- Session 3- 1st April 2021

## Task Team on Data transmission

## Objectives and plans so far

Ann Corp and Claire Plateau
ONS-UK/ Insee- France

*1 April 2021*

Measuring, understanding

Insee

# Aim and scope of the Task Team on data transmission

➢ Set up an information portal on Data Transmission technologies and tools on UNECE Wiki

➢ Analysis of user needs via user stories

➢Gather experiences/pilot data transmission technologies

➢Data transmission will focus on transmission via SDMX but could also consider other means of data transmission

# Desired outcome

1- Awareness of the UNECE countries of the existing work, products and guidance from the SDMX-SDGs Working Group and any other related SDMX initiatives eg DSD, Metadata template, SDG Lab

2 - A greater understanding of the needs and challenges faced by UNECE countries in implementing SDMX

3 - Improved understanding of needs and challenges in data transmission between countries and custodian agencies.

4 - Share of UNECE country experience of SDMX across the region

5- Set up an information portal on Data Transmission technologies and tools on UNECE Wiki

6 - UNECE TTDT wiki pages updated with more information and case studies

# Specific outputs, tasks and milestones (1)

- ➢ **Session at UNECE workshop on Data Transmission 1st April 2021**
  - ➢ Cover outcome (1) and (2) and hopefully outcome (2)

- ➢ **Develop, send out and analyse results from a survey to find out more about UNECE countries needs and experiences re SDMX**
  - ➢Cover outcome (2)
  - ➢April 2021 Develop survey content and prepare in survey monkey
  - ➢Mai 2021 Distribute in survey monkey and follow-up non response
  - ➢June 2021, analyse the results and feed into UNECE TTDT wiki pages

- ➢ **Develop/disseminate case studies to share SDMX experiences from within the region**
  - ➢ Cover outcome (4) and also tie in with UNECE workshop content
  - ➢ Data modelling with SDMX DSD (Kyrgyzstan)
  - ➢ Structuring existing data to comply with DSD ( Kazakhstan Uk and others?)
  - ➢ Trial of Datalab to load country data and metadata (France)
  - ➢ Use of metadata template
  - ➢ Transmission of country data to Custodian agency –examples
  - ➢ Consider what experience other working group countries could share e.g. Russia

# Specific outputs, tasks and milestones (2)

- ➢ **Develop/validate the existing user stories regarding Custodian Agency needs for data from countries**
  - ➢ Cover outcome (3)
  - ➢ Timing to be confirmed, depending on other activities

- ➢ **Update wiki page content**
  - ➢ Cover outcome (6)
  - ➢ Use case studies
  - ➢Timing to be confirmed

# The UNECE Task Team Data Transmission Platform
