Equinor

# How technology and diversity enable a low carbon future

Åshild Hanne Larsen, CIO and SVP IT  
Equinor

## The Energy World in 2050

Net zero targets – a new normal

Growth in world population

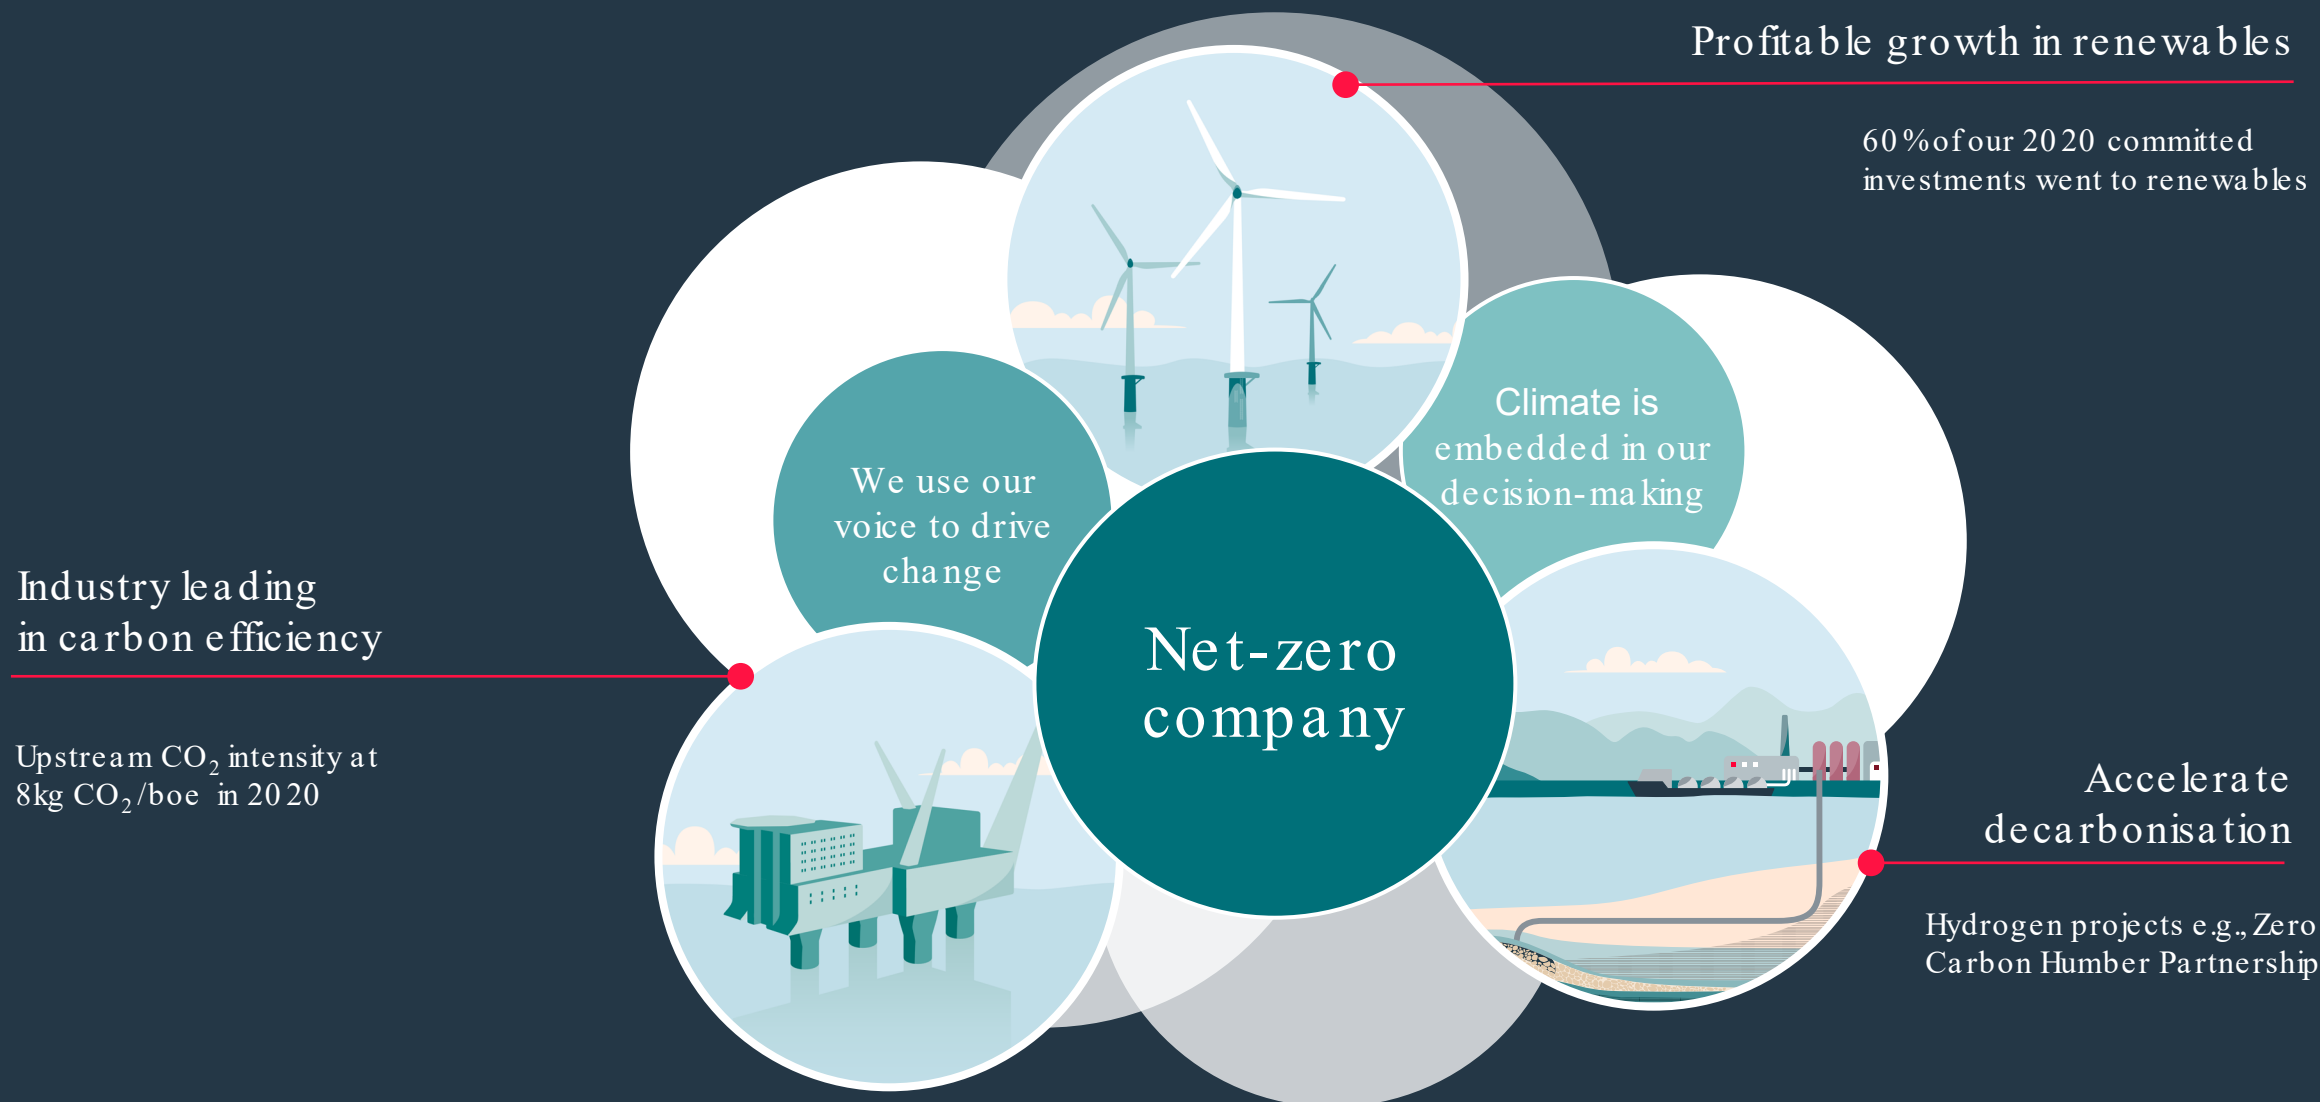

Increased resource & energy demand

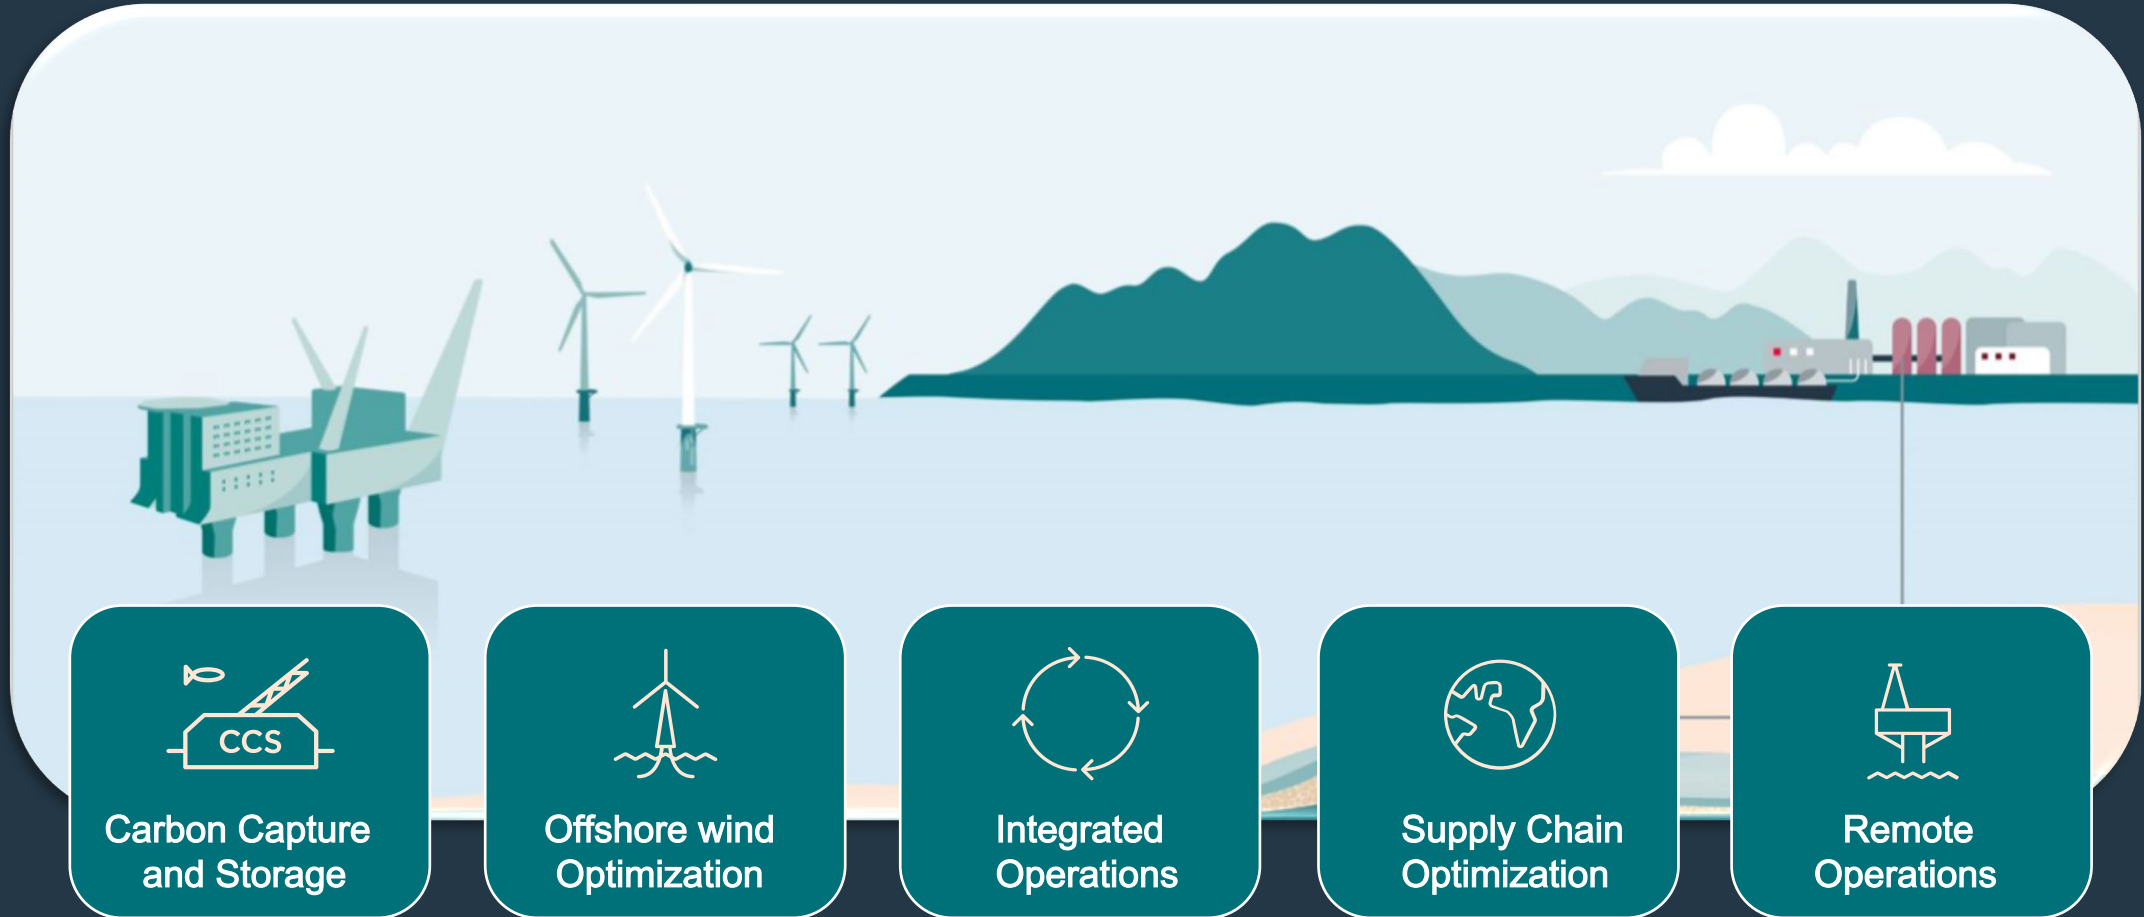

Transformed energy systems

# Equinor's climate roadmap

# Technology is a key enabler

# How to get there

## Why diversity matters

Improved business & financial performance

Increased creativity & group intelligence

Improved quality of decision making
