UNECE

**8th Session of the Group of Experts on Gas
Thursday, March 25th**

Jim Herbertson

Technical Director – Climate & Energy

Advancing environmental
and social performance
across oil and gas

www.ipieca.org

Making our vision a reality

IPIECA cares about climate, nature, people and sustainability

Vision:

To advance the oil and gas industry's environmental and social performance and contribution to the energy transition in the context of sustainable development.

Climate

Nature

People

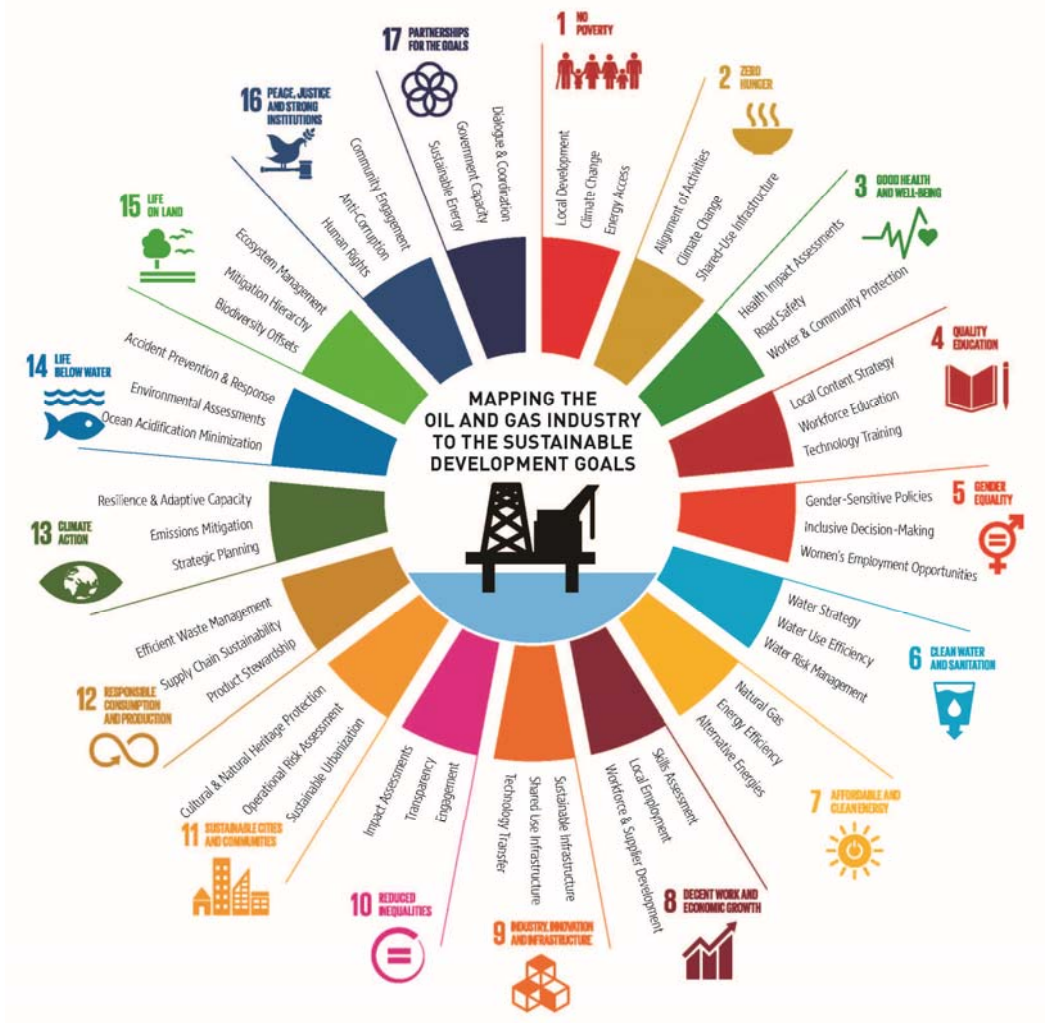

Sustainability

Our strategy provides leadership for the global oil and gas industry on advancing climate action, environmental responsibility, social performance and mainstreaming sustainability.

Mapping the Oil and Gas industry to the SDGs

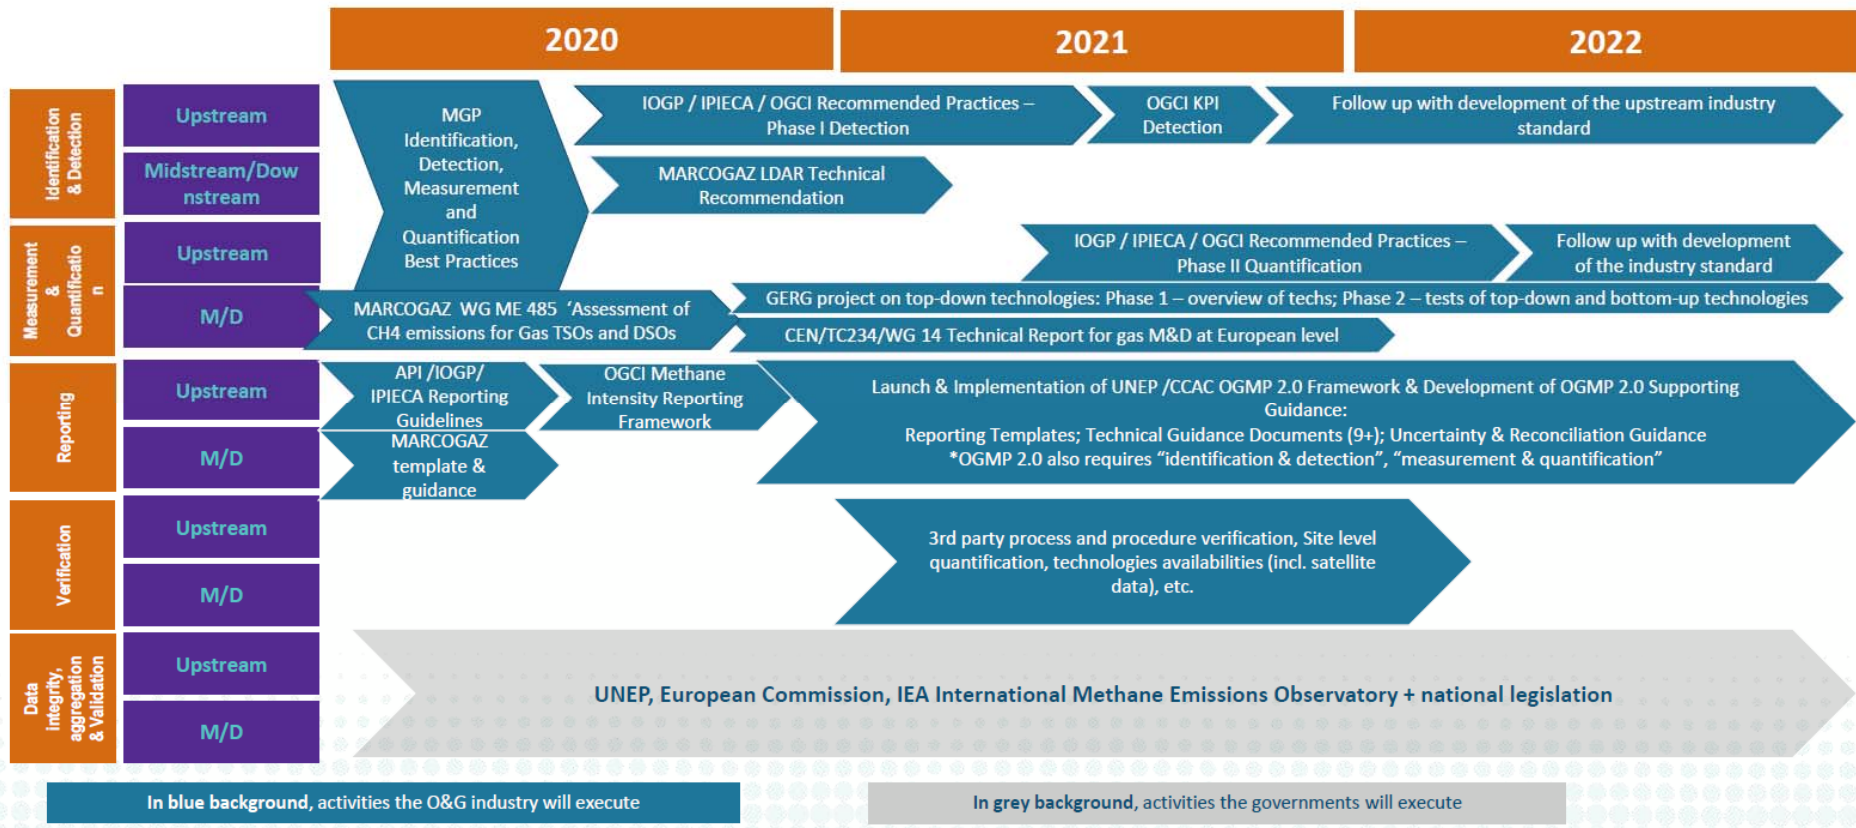

From the SDG Atlas to the SDG Roadmap

MAPPING THE OIL AND GAS INDUSTRY TO THE SUSTAINABLE DEVELOPMENT GOALS: AN ATLAS

Mapping O&G effort relating to measurement, reporting and verification of methane emissions

Knowledge sharing

Partnering and collaborating with other associations

- **2020 IPIECA workshop ‘Methane science, regulations, voluntary initiatives and global expectations’**

- **Webinar with the Methane Guiding Principles (of which IPIECA is a supporting organization) to promote its 10 best practice guides**

- **2021 Methane webinar series (SPE, IPIECA, OGCI, IOGP)**

 - Detection & Measurement in a rapidly evolving landscape (February 17th)

 - Technology & Investment Focus (March 31st)

 - Policy Focus & voluntary actions from the Industry (May 12th)

 - Satellite Measurements Data (June 16th)

- **Joint IOGP, IPIECA, OGCI Project: Recommended Practices for Methane Detection and Quantification**

Transparency

Improving reporting on methane emissions

IPIECA-API-IOGP Sustainability Reporting Guidance

Module “Climate change and energy”

Climate governance and strategy

Climate risk and opportunities

Lower-carbon technology

Greenhouse gas emissions

Methane emissions

Energy use

Flared gas

Regular updates to ensure alignment with other Frameworks
