## Economic Commission for Europe

Conference of European Statisticians

**Sixty-ninth plenary session**

Geneva, 23-25 June 2021

Item 8 (c) of the provisional agenda

**Programme of work of the Statistics subprogramme of the United Nations Economic Commission for Europe:  
Programme planning documents for the Statistics subprogramme of the United Nations Economic Commission  
for Europe**

## Changes to the Publications Programme of the Statistical Programme 2021

Prepared by the Secretariat

### *Summary*

The Programme of Work of the UNECE Statistics subprogramme for 2021, including the publications programme (ECE/CES/2020/16), was adopted by the CES plenary session in June 2020. Some changes are required to the publications programme for 2021, due to the postponement of selected publications. This note presents these changes, which will make possible printing other publications, within the limits of the available resources.

The Conference is invited to review and approve the document.

## I. Background

1. The Programme of Work of the UNECE Statistics subprogramme for 2021, including the publications programme for 2021 (ECE/CES/2020/16), was adopted by the CES plenary session in June 2020 (ECE/CES/99, para. 14). Some changes to the 2021 publications programme are required, due to postponement of two publications. Adoption of these changes will make it possible to print in 2021 other publications, replacing those that are postponed.

## II. Changes to the Publications Programme 2021

2. The following two non-recurrent publications were included in the list of planned publications for 2021 (adopted by the CES plenary session in June 2020) and are postponed:

- (a) Guidelines on measuring well-being and digitalization;
- (b) UNECE Countries in figures 2021.

3. The following two publications will be included in the publications programme for 2021 as printed publications, replacing those postponed:

- (a) Guide on producing CPI under lockdown;
- (b) Statistical modernization monograph on machine learning; this publication was already included in the publication programme for 2021, but as electronic only publication.

4. The details of the two publications are presented in the table below:

<i>Item no.</i>	<i>Title</i>	<i>Mandate</i>	<i>Print and/or electronic</i>	<i>Trim size</i>	<i>No. of pages</i>	<i>Original language (s)</i>	<i>Translated language(s) and Source of funding (RB or XB)</i>	<i>No. of copies and language (s)</i>
1	Guide on producing CPI under lockdown	The mandate to be provided by the Conference of European Statisticians in June 2021 and reflected in its report.	Print and electronic	A4	150	E		
2	Statistical modernization monograph on machine learning	The mandate to be provided by the Conference of European Statisticians in June 2021 and reflected in its report.		A4	150	E
