

Online Population Census: The Indonesian Experience

Statistics Indonesia

The Baby Steps

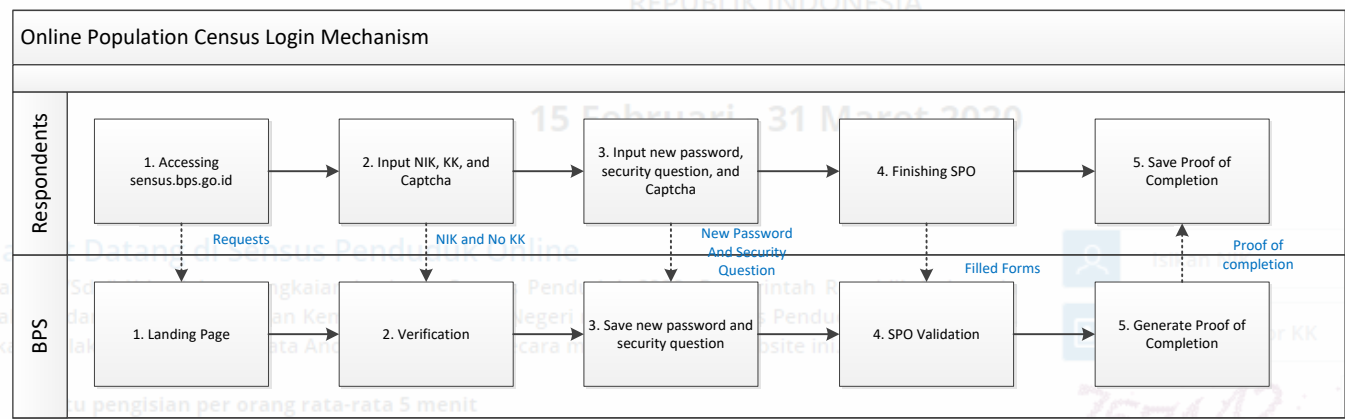

- 2017: Goal setting -> One Indonesian Population Data
- 2018: Data exchange initiation
- 2019: Database integration
- 2020: Census during the pandemic

- sensus.bps.go.id is built using the Integrated Collection Survey (ICS), Statistics Indonesia's multimode survey platform
- During 2018-2020 experienced improvements as a result of trials
- Fundamental changes
 - login mechanism:

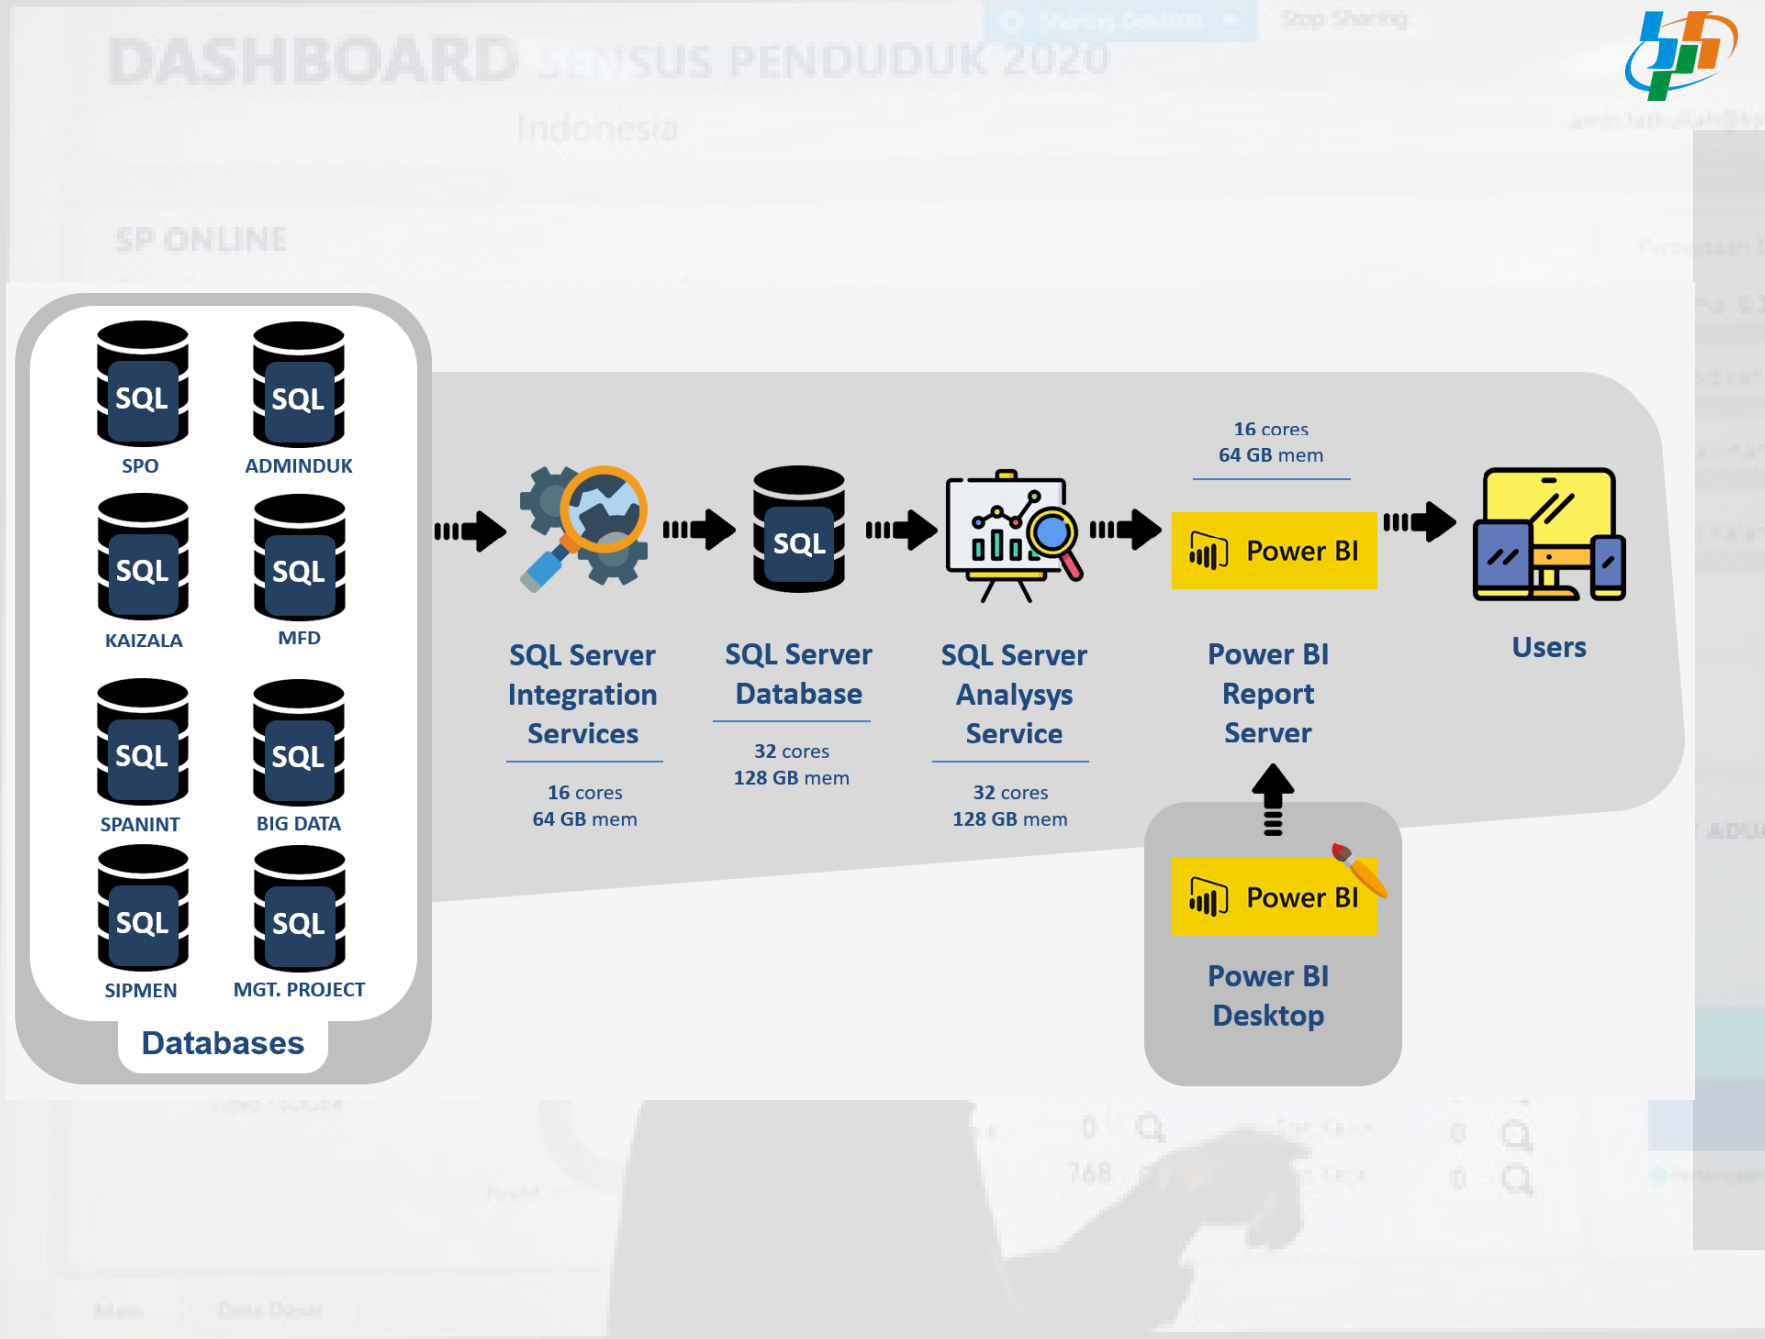

The Forms

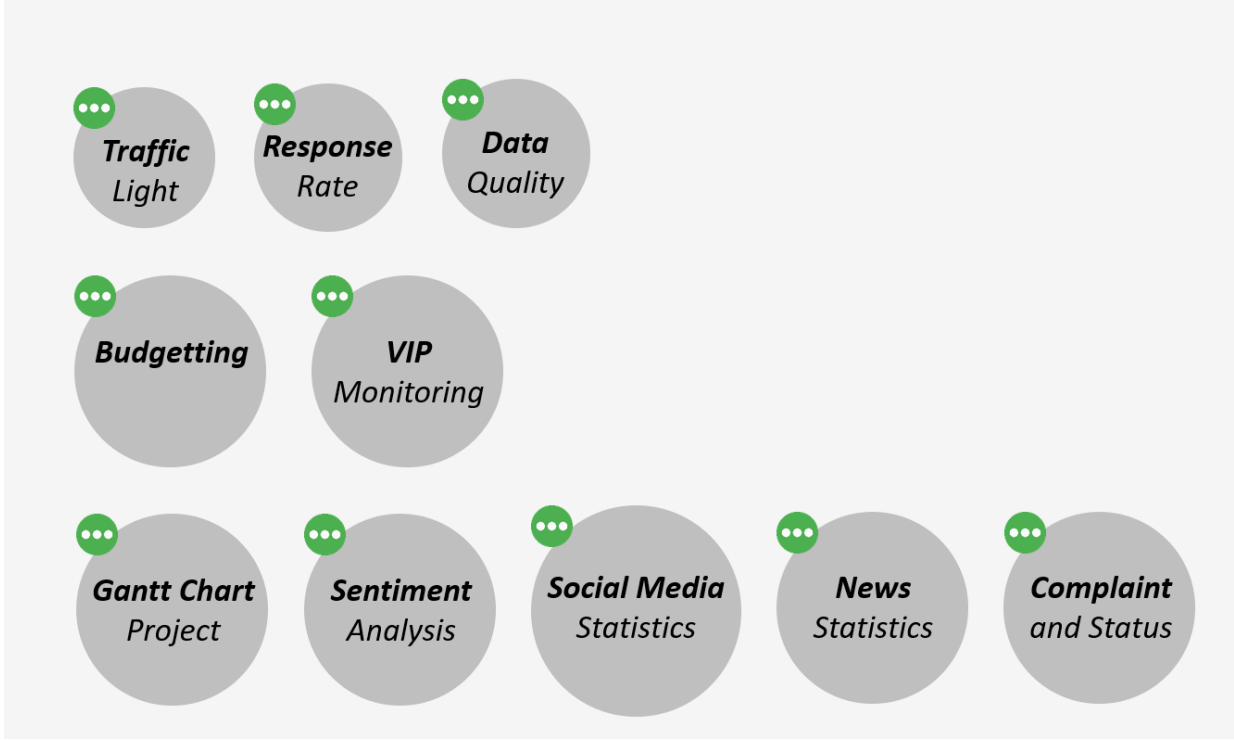

- wording on questions: question design involving linguists, bloggers and journalists
- personal data security: minimize pre-filled data

2020 census extended due to low participation, COVID-19 woes

A journalist follows a live-streamed press conference by Statistics Indonesia (BPS) in Jakarta, on March 16. More and more government agencies are moving online to broadcast their activities in a bid to curb the spread of the COVID-19 outbreak. (IP/Wendra Ajitayama)
