

Proposal to amend GRE/2021/13, GRE/2021/14 and GRE /2021/15

1. Justification

The transitional provisions, as drafted, do not allow Contracting Parties to put to an end their obligation to continue accepting, indefinitely, old type approvals. Each Contracting Party should have a right to define its minimum levels of safety performance, consistent with those of the UNECE framework, in particular when more recent and up-to-date requirements are already in force.

The proposal amending proposals GRE/2021/13, GRE/2021/14 and GRE /2021/15 is based on the template of the General Guidelines for United Nations regulatory procedures and transitional provisions in UN Regulations (Annex 1, II, B, C.4), and has already been applied in practice for other UN Regulations:
