Transmitted by the IWG on DETA

informal document WP.29-185-12
185th WP.29, agenda item 4.5
(document DETA-42-05e rev1)

Report to 185th WP.29 session from
the 42nd IWG on DETA meeting

DETA

The secure internet database for exchanging approval documentation between the Contracting Parties of the 1958 Agreement, as required to be established by the UNECE,
according to Revision 3 of this Agreement.

State of play

- **DETA is still under development but since May 2019 ready to be used for it base purpose:**

- 33 Contracting Parties have notified their DETA Focal Point

- App. 12400 approvals uploaded (13 CP)

- App. 5560 manufacturers are uploaded and could be selected by TAA

- 13 Manufacturer have access to DETA (only to their own approvals)
  (manufacturer's access is to be requested via their approval authority and to be forwarded to the DETA Administrator)

- **Contracting and implementation UI**

  → contract for financial participation of industry is drafted

- **Mass Upload Functionality**

  → purchase order finalized in KBA

- **Two factor authentication**
  → proposal of SW-house under review

- **Extension of scope DETA following WP.29/AC.2 assignment**

  → The IWG on DETA discussed the proposal to extend DETA to store the 'traffic scenarios catalogue for automated vehicles':

  - The access to the traffic scenarios catalogue is beneficial to all CPs to the 1958 and 1998 Agreements;

  - If agreed by WP.29, the IWG on DETA will investigate the possibilities and work in conjunction with the IWG on VMAD/SG1 to deliver the proper solutions for the description of traffic scenarios;

  - The intention is to provide access to the traffic scenarios for stakeholders to allow them building their own concrete scenarios from the available elements relevant to the scenario layers;

  - This proposal may contribute to unblock DETA financing from the UN budget.

- DETA summary documents on UI marking:

→ presentations to all GR's ongoing

WP.29 is requested to consider:

* **The amendment of the UI guidelines doc. WP.29/2019/77.**

* To allow the IWG **to further explore the broadening of the scope** of DETA to accommodate the needs of the CPs to all Agreements, including
  - the investigation of the possibilities of storing the traffic scenarios catalogue in DETA, and
  - the exchange of information on PTI.
