UPDATES FROM THE UIC SECURITY PLATFORM

**75th UNECE Working Party on Rail Transport
19 November 2021, online**

Marie-Hélène Bonneau– UIC Head of security division

Security situation for railways during the pandemic

Security Issues for railways during the pandemic in 2021

Cyber incidents

Aggressions towards staff : "covid fatigue"
- have increased for 72% of responders since November 2020
- Post Covid-19: expected to be stable

Pickpocketing
- has remained stable or decreased
- Post Covid-19: expected to rise

Metal theft
- has remained stable or decreased during the Curfews. It is increasing since May 2021 for some of the responders
- Post Covid-19: few responders expect any change

Irregular migration : Post Covid-19: expected to rise
