UN DESA, World
Population Prospects
2019

Eurostat, ILO, OECD,
national statistics

Eurofound, national
surveys, data
collected under the
Active Ageing Index
project

Suggested indicators (continued)

Independent, healthy and secure living indicators:

8a. Physical activity and access to health services

- taking part in sports or physical exercise
- no unmet need for medical and dental examination or treatment

8b. Financial security

- ratio of the median income of persons aged 65 and above to that of persons aged below 65
- not at a risk of poverty
- not severely materially deprived

8c. Independent living arrangements, physical safety and lifelong learning

- living in a single-person or a couple household
- feeling safe in local area
- Involvement in training or education

Eurofound, Eurostat,
national surveys

Eurostat, OECD,
national surveys

Eurofound, Eurostat,
national surveys, data
collected under the
Active Ageing Index
project

Suggested indicators (continued)

Capacity for active ageing indicators:

9a. Life expectancy and healthy life expectancy at age 55

Eurostat, WHO,
national surveys

9b. Mental well-being and social connectedness

- in positive mood and good spirits
- meet regularly with friends, relatives or colleagues

Eurofound, national
surveys, data
collected under the
Active Ageing Index
project

9c. Education attainment and Internet use

- upper secondary or higher level of education
- regular Internet use

Eurostat, OECD, World
Bank, national surveys
