Economic and Social Council

Economic Commission for Europe

Administrative Committee for the TIR Convention, 1975

Technical Implementation Body

First session
Geneva, 18–21 January 2022
Item 5 (a) (v) of the provisional agenda
eTIR conceptual, functional and technical documentation:
Version 4.3:
Amendments

Proposals for minor corrections to version 4.3

Corrigendum

1.   Paragraph 4

At the end of paragraph 4, *add* a bullet point

- A new testable rule R017 applied on message I5 which would read as follows: "Customs authorities can only query TIR transport information related to a guarantee if they are part of the itinerary.";

2.   Paragraph 6

After paragraph 5, *insert* a new paragraph *reading*

5bis.   The "Container transport indicator" used in class "Consignment" is not an actual indicator but rather a coded attribute linked to code list UN/EDIFACT 7365 (Processing indicator description code). Consequently, condition C005 need to be amended and test for value "69", which means "Goods not carried in container" instead of "FALSE". Conditions C005 should therefore read as follows:

IF (CONSIGNMENT.Heavy or bulky goods indicator) = FALSE AND (CONSIGNMENT. Container transport indicator) = 69
THEN NOT EMPTY (TRANSPORTEQUIPMENT.CERTIFICATEOFAPPROVAL)
ELSE EMPTY (TRANSPORTEQUIPMENT.CERTIFICATEOFAPPROVAL)

3.   Annex I, Table 2, row C005

Replace row C005 with the row below

Condition ID	Description	Pseudo code
C005 *(Modified)*	If the consignment is marked as not containing heavy of bulky goods and the transport equipment is a trailer, a semitrailer, a double trailer or the load compartment of a simple truck, then the certificate of approval in the transport	IF (CONSIGNMENT.Heavy or bulky goods indicator) = FALSE AND (CONSIGNMENT. Container transport indicator) = ~~FALSE~~ 69 THEN NOT EMPTY (TRANSPORTEQUIPMENT.CERTIFICATEOFAPPROVAL) ELSE EMPTY (TRANSPORTEQUIPMENT.CERTIFICATEOFAPPROVAL)

Condition ID	Description	Pseudo code
	equipment should be filled in, otherwise it should be empty.	

4.   Annex I, Table 3, row R016

After row R016 *add* a new row *reading*

Rule ID	Description	Testable
R017 *(Added)*	Customs authorities can only query TIR transport information related to a guarantee if they are part of the itinerary.	Yes

5.   Annex II, Table 4, row 332

Replace row 332 with the row below

Code	Name	Description
332	Guarantee type/Guarantee mismatch	The guarantee type ~~parameter~~ **value** and the guarantee reference ~~parameter~~ **value** do not match what is recorded in the database
