Planleggingsverktøy

Ark 1 av 1

www.innovativeanskaffelser.no

1. Utgangspunkt

Havnen

Hva er hensikten med reisen? Skal den bidra til å løse en utfordring eller et problem? Formuler gjerne utfordringen som et spørsmål

Er dere sikker på at utfordringen, problemet eller behovet løses ved at dere anskaffer en løsning, et produkt, eller tjeneste?

3.

Fyrtårnet

Fins det strategier som bør vise retning?

4.

Still inn roret

Vurdér og finn teknologiske, økonomiske og juridiske rammebetingelser for løsningen som skal anskaffes.

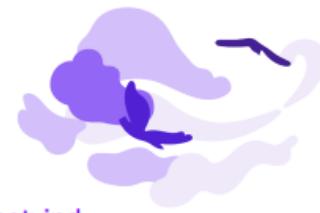

Hvordan påvirker disse rammebetingelsene retningen?

6.

Medvind og motvind

Er det interne ressurser eller andres erfaringer man kan dra nytte av i prosessen?

Finnes det hendelser eller faktorer som kan påvirke reisen (prosessen) og rammebetingelsene negativt?

7.

Mannskap, kaptein og passasjer

Mannskapet - Hvem skal sitte i båten hele veien og utgjøre kjernen i anskaffelsesprosjektet?

Kapteinen - Hvem har bedt dere om å legge ut på reisen?

2.

Destinasjonen

Paradisøya

Hvor skal dere, og hvorfor skal dere ut på denne reisen? Beskriv målet og hva dere ønsker å oppnå.

8.

Er beskrivelsen av destinasjonen den samme?

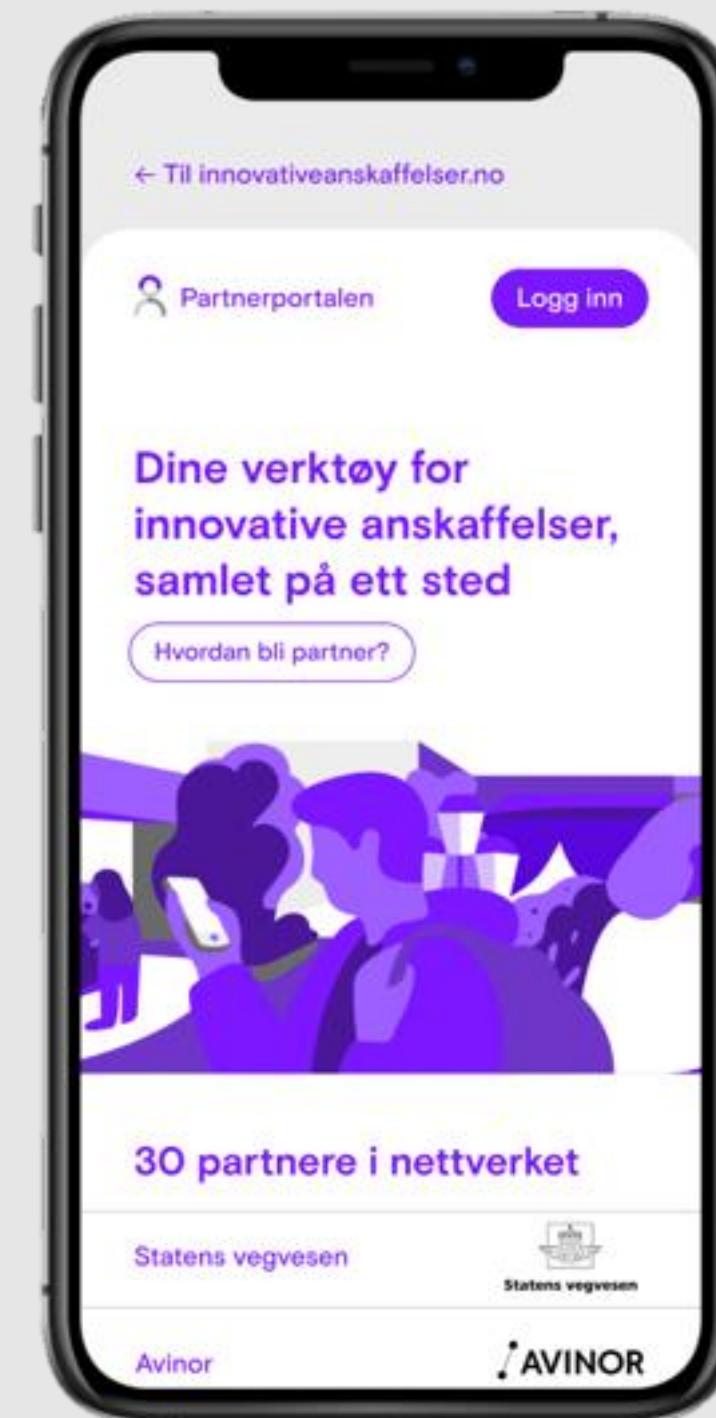

Aktiver Windows

Gå til Innstillingene for å aktivere Windows.
Se på punkt 1. Havna og 2. Paradisøya igjen.
Bør vi om- formulere mål eller utfordring?

Partner Programme

Function

- Driving force to increase the use of IP in public organisations

Supplier conference: Reusing Building Materials

- What: An arena where innovations, products and solutions are presented to the public market.
- LUP + The Federation of Norwegian Construction Industries (BNL)
- Aim:
 - Contribute to developing a larger second-hand market within the current regulations
 - Show case the available value chains of suppliers for the reuse of building materials
 - Lift those who go ahead and see the possibilities within the current regulations, suppliers and public buyers

Fast Track for Circular Economy

- Five projects financed by the Ministry of Climate and Environment
- Funded as a counter-cyclical measure in response to the COVID-19 pandemic.
- Purpose: stimulate businesses to develop new circular innovations through public procurement.
- Period: Aug 2020–March 2021

Effect

- LUP has assisted in more than 200 innovative public procurements
- € 35 million in public expenditure savings
- 350 new jobs have been created due to these acquisitions
- LUP has shown that we can increase the rate of innovation in Norwegian businesses and the public sector when state, municipality and business cooperate
