

Automated Vehicles Regulatory Screening of UN Regulations and GTRs - Guidance -

Comments on GRVA-14-41, slide 7

Items to consider during the screening of UN Regulations and UN GTRs:

Vehicles in the scope:

- Vehicles equipped with an ADS that do not permit TOC while vehicle is in motion
- Consider:
 - Dual-mode vehicles
 - Vehicles without manual driving capabilities
 - Vehicles with or without occupants

In response to GRSG question: review can include ADS equipped vehicle with:

- manual driving mode up to 6 km/h, or
- with a manual driving mode above 6 km/h

Screen regulations with:

- Term such as “driver” (interaction with controls in the vehicles), “seating position” and other topics (performance requirements)
- Term driver in relation with testing provisions

Note: any proposal to introduce ADS-related terminology shall be reviewed by GRVA to ensure consistent terms and definitions.
