

RMS to meet the Sustainable Development

Teresa Ponce de Leão

RESOURCE MANAGEMENT WEEK 2022

ENABLING SUSTAINABILITY PRINCIPLES IN RESOURCE

UNECE

Why UNRMS?

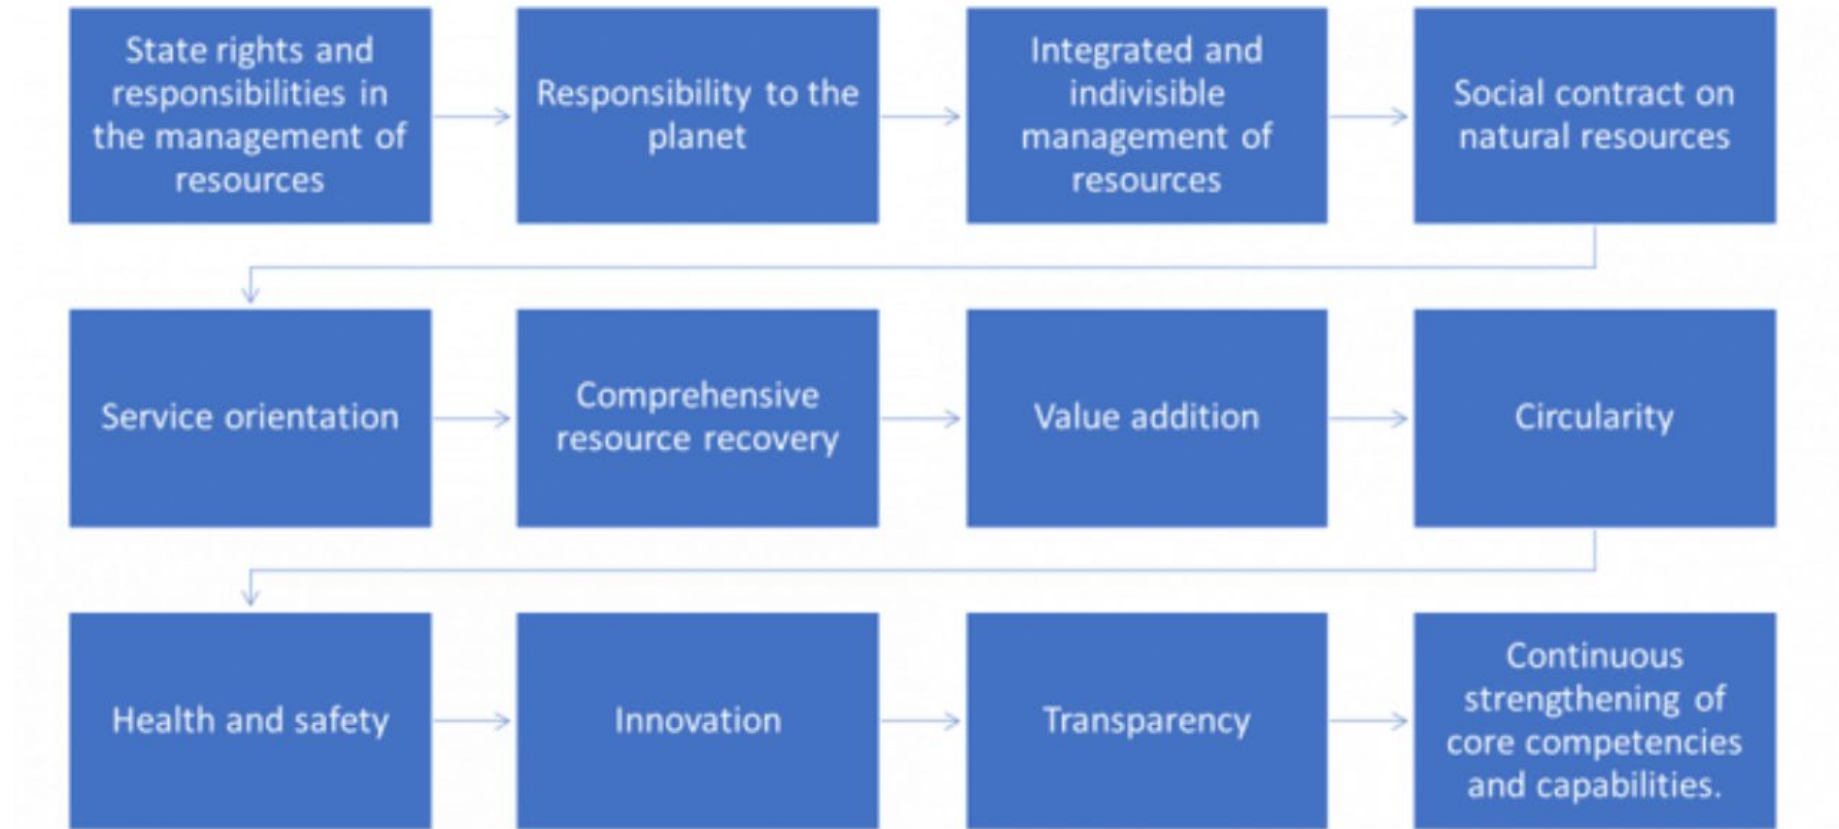

Need for an integrated approach

- The UNFC has become a unified system for classifying, accounting and reporting on resources, based on social, environmental and economic viability, technical feasibility and degree of confidence of resource
- UNRMS is the extension of UNFC to a dynamic resource management system
- Intends to accelerates sustainable solutions not for a resource but overarching the whole value chain

Basis of UNRMS

Principles and requirements

UNRMS Fundamental Principles

What is UNRMS

Framework for sustainable resource production and use.

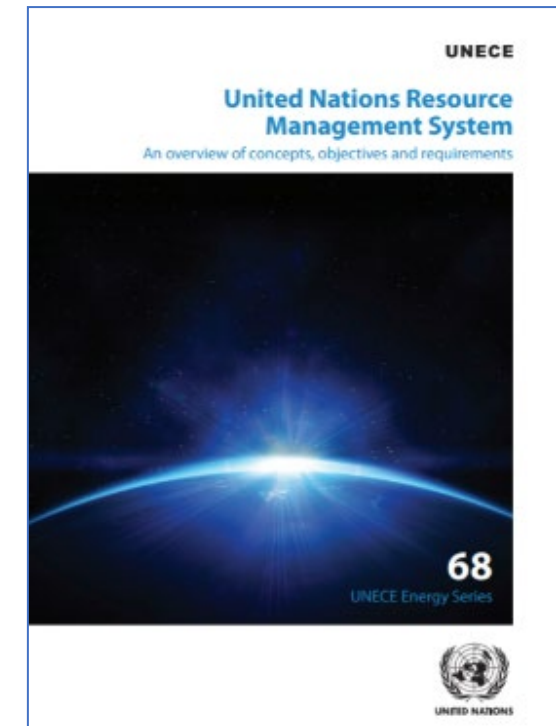

For government's requirements to support and mediate supply- and value-chains of natural resources

For **integrated**, sustainable and adaptive **development of resources**.

Tool-kit (in progress) so could serve different needs of stakeholders.

Comparisons across projects not only in terms of resources, but also other indicators, e.g. Life Cycle Analysis, Value-chain

Sub-group UNRMS

EGRM

UNECE

Sustainable management of critical raw materials required for the low-carbon energy transition
