

Proposal for the 06 series of amendments to UN Regulation No. 48 (Installation of lighting and light-signalling devices)

The text reproduced below was prepared by the expert from China to make some editorial corrections to the 06 series of amendments to UN Regulation No. 48. The modifications to the current text of the regulation are marked in bold for new and strikethrough for deleted characters.

I. Proposal

Paragraph 6.19., the headline is amended to read:

"~~Day-time~~ **Daytime** running lamp (Regulation No. 87)"

Paragraph 6.24.9.2., amend to read:

"Approved lamps emitting white light with the exception of main beam head lamps, ~~day-time~~ **daytime** running lamps and reversing lamps may be activated as courtesy lamp function. They may also be activated together with the exterior courtesy lamps and the condition of paragraphs 5.11. and 5.12. above may not apply."

II. Justification

1. In the text of the 06 series of amendments to UN Regulation No. 48, Paragraph 2.7.25. provides the definition of "Daytime running lamp", which is repeatedly used in the context below.
 2. UN Regulation No. 87 (Uniform provisions concerning the approval of daytime running lamps for power-driven vehicles) also define this kind of lamp as "Daytime running lamp".
 3. China noticed that in paragraph 6.19. and 6.24.9.2., the name of "Daytime running lamp" were written as "Day-time running lamp" and "Day time running lamp" respectively.
 4. Since daytime running lamps became mandatory in 2011 (introduced by UN Regulation No. 48, 04 series of amendments), it became necessary to make consistency through the text.
