

ML-Ops

....if it would be
illustrated by the
Swiss avant-
garde painter
Alice Bailly

**Statistical
production still
contains lots of
manual work**

**The HLG-
community have
invested in
industrialising
production**

**New data science
and machine
learning is now
entering official
statistics**

New methods and machine learning

ML-Ops is a set of practices to industrialise Machine learning

Manual

Automated

Traditional methods

Adopting **ML-Ops** will help us:

- move proof of concepts to production
- automate data flows and management
- help to industrialise traditional statistical production - **Stat-Ops**?
