How to register as a UN/CEFACT Expert?

<http://www.unece.org/cefact>

The screenshot shows the UN/CEFACT website interface. At the top, there is a navigation menu with links: About UNECE, Our work, Themes, Where we work, Open UNECE, Events, Publications, and Media. On the left side, there is a sidebar menu with the following items: Trade Programme, UN/CEFACT (highlighted with a grey background), About us, Domains, Projects, Public Reviews, Outputs, Meetings and Events, Publications, Join UN/CEFACT (highlighted with an orange border), Policies, Procedures and Terms of Reference, and National Trade Facilitation bodies and NTFB Repository. The main content area features a large heading 'UN/CEFACT' with a descriptive paragraph: 'Serves as the focal point for trade facilitation recommendations and electronic business standards, covering both commercial and government business processes that can foster growth in international trade and related services.' Below this is a section titled 'About CEFACT' with a detailed paragraph: 'Within the United Nations framework of the Economic and Social Council, the United Nations Economic Commission for Europe (UNECE) serves as the focal point for trade facilitation recommendations and electronic business standards, covering both commercial and government business processes that can foster growth in international trade and related services. In this context, the United Nations Centre for Trade Facilitation and Electronic Business (UN/CEFACT) was established, as a subsidiary, intergovernmental body of the UNECE Committee on Trade, mandated to develop a programme of work of global relevance to achieve improved worldwide coordination and cooperation in these areas.' To the right of the text is an image of a laptop with a red-tinted overlay showing various icons and documents.

## Confluence

THE NEW CONFLUENCE - AN  
HARMONIZED FRAMEWORK FOR  
PROJECTS COLLABORATION and  
COMMUNITY BUILDING

**The Collaborative UN/CEFACT Environment (CUE). It contains 6 main sections:**

- The Home Page (Updates and Highlights – Project, Page and Bureau Updates)
- The Secretariat (How to Contact us etc.)
- The Bureau (Bureau Meeting Minutes and Decision)
- Projects (Active Projects by Programme Development Areas, Project Map and Public Reviews)
- HODs (UN/CEFACT Heads of Delegation)
- Domains (UN/CEFACT Domains – Background Information and Knowledge Resources)

**The CUE provides knowledge management, mapping of all the projects running in each Programme Development Area and aids in the delivery of support to the UN/CEFACT experts.**

Extensionally, all the people representing a knowledge asset for UN/CEFACT are those from the Secretariat and those in the network of experts. Both these groups influence each other and interact in a variety of processes. We can so affirm that everything that UN/CEFACT and its network of experts know is distributed across workflow processes and people involved in those processes. Substantially, every time we try to identify a piece of knowledge we are trying to freeze what an interaction among people in a certain workflow contains. What they know, before, during and after the interactions within the workflow, represents a piece of UN/CEFACT knowledge

### **Documents Management\***

The document area is a space mainly used for generic content and document sharing. Some tutorials, how to guides and other kind of materials might be found here. The goal is clear, yet an area of this kind must be highlighted better in order to guide the users in taking advantage of the knowledge inside that will affect the way they will gather the rest of the knowledge in the system.

### **Active Projects - Programme Development Areas\***

The project area where all the program development areas are described with all the projects associated is a fundamental part of the current confluence. It gives experts, HoD and Secretariat, a shared way to monitor the activities of each project and to document the stages. It contains some project management tools (like the template to structure a project) but it doesn't offer a real monitoring and collaborative organisation that can ease the overall process of project development.

The screenshot shows the home page of the Collaborative UN/CEFACT Environment (CUE). At the top, there is the UNECE logo and a search bar. Below the logo is a navigation menu with links: HOME, SECRETARIAT, THE BUREAU, PROJECTS - HOD(S), DOMAINS, and MY PERSONAL ASSISTANT. The main content area features a large banner for 'THE BUREAU' with an 'EXPLORE' button. Below this is a section titled 'ON THE SPOT' with a star icon, containing a paragraph about the 38th UN/CEFACT Forum. A 'Thank you for participatin' banner is also visible. At the bottom, there are two side-by-side sections: 'ACTIVITIES OF INTEREST' showing a calendar for Tuesday, Jul 26, 2022, and 'PAGES UPDATES' listing recent updates from Aruna VIVEKANANTHAM, Kevin Macdonald BISHOP, and Alla SHLYKOVA.

The screenshot shows the contact information and questions page for the UNECE UN/CEFACT Secretariat. It features the UNECE logo and search bar at the top, followed by the same navigation menu. The main heading is 'UN/CEFACT SECRETARIAT'. Below this is a paragraph describing the Secretariat's role within the UN framework. The page is divided into two columns: 'THE PEOPLE' and 'IMPORTANT RESOURCES'. 'THE PEOPLE' lists staff members with their names, email addresses, and profile pictures. 'IMPORTANT RESOURCES' lists various links and documents available to users. At the bottom right, there is a 'RECENT QUESTIONS' section with an 'Ask a question' button.

**PROJECT PURPOSE**

Product conformity systems and mutual recognition agreements provide global quality assurance and supply chain safety mechanisms. The increasing complexity of supply chains is adversely impacting the visibility of the product conformity assessment processes, potentially reducing trust in product claims. This project focuses on product conformity as part of a broader regulatory compliance framework to define a glide path for business-to-government (B2G) and business-to-business (B2B) transition from paper and pdf-based exchange of product conformity credentials
