

Final Priorities from 2013 Workshop

1. CSPA (implementation, enablers, GSIM?, licensing?) *****
2. Big data (as a capability, not just IT, legal authority regarding access, privacy, experiments) *****
3. Licensing and IP issues (models for sharing software, ongoing support for development) **
4. Evaluation, cost/benefit of modernisation *
5. Implications of mobile devices for data collection and dissemination *
6. GSIM operationalisation/maintenance /integration – DDI, SDMX, CSPA *
