Safety conditions for UNICEF support

YOUTH AND ESD IN UKRAINE

IRPIN COMMUNITY (MYKHAILIVKA-RUBEZHIVKA VILLAGE,
IRPIN)

- ✓ One of the biggest tasks is to provide education in a safe environment and psychological stability. Eco- and garden- therapy methods

YOUTH AND ESD IN UKRAINE

ZAPORIZHZHYA REGION

✓ Sustainable Education Space in Khortytska National Rehabilitation and Education Academy for IDPs from Donetsk and Lugansk regions, Mariupol

Youth movement «We are Chernigiv!»

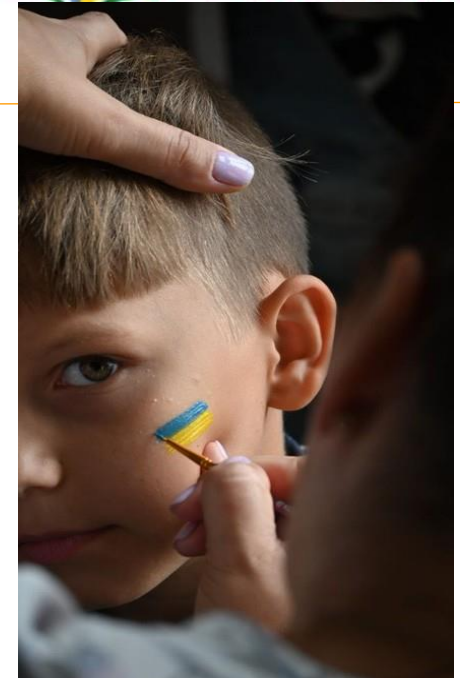

YOUTH AND ESD IN UKRAINE

CHERKASSY REGION

✓ Sustainable Education and Creative Studios for Mykhailivka community and IDPs families in Cherkassy region

In August 2022, psychological rehabilitation camps “Sustainable Development Workshops” were held for supporting rural children and youth during the war.

Sustainable development workshops were held in 4 villages of Vyshevychi community, that is located 40 km from the Kyiv region, where active military actions took place and also not far from the border with Belarus.

Children who were in the villages of the community were forced to hide in basements, ordinary damp cellars for storing vegetables, and this significantly affected their psychological and emotional condition.

248 children of different ages joined the Sustainable Development Workshop in Vyshevychi community (128 girls, 120 boys, including 86 internally displaced persons)

Sustainable development Spaces for children of Zhytomyr region

An interesting and useful program was prepared for children, namely:

- 15 master classes were held;
- art-therapeutic activities were used daily;
- an excursion to the city of Korostyshiv was organized;
- 4 quests and environmental games were held;
- 2 exhibitions were organized, where children studied the history and traditions of their native villages and our country;
- Workshop participants were provided with daily meals;
- children spent a lot of time outdoors, playing active games and communicating with each other.

In general, at the end of the Spaces, the psychological and emotional condition of children has improved significantly, compared to the first days of work, children discovered new hobbies and skills that they can use and develop in their own lives.

SAVEducation in Irpin

Crowdfunding campaign

The implementation of this initiatives inspired us to launch a large-scale project to restore educational institutions and help children in Irpin.

We continue together with the crowdfunding platform [SavEducation in Irpin](https://www.facebook.com/SAVEducation.in.Irpin)

Our goal: Support Safe and Quality Education in Irpin for the Better Future of Ukraine.

Our objectives:

- repair schools and other educational institutions that were destroyed;
- mequip shelters in these institutions;
- ensure quality education and post-school activities;
- provide psychological support to children and teachers;
- support children and teachers to adapt to new environment.

Our voices

Mykyta Ochinikov, 9 years old

Irpin, Kyiv region

“I was waiting for us to return as soon as possible, so that my friends and I could walk, talk, run, play.

Some haven’t returned yet...”

**Let's together return to Ukrainian children their right to quality education
for sustainable development and safe happy childhood!**
