

Agenda Point 5: Information-sharing by Parties on the implementation of the Convention

Policies and measures by the European Union

Air Convention, WGSR 61

5 September 2023

Alex Hurley
European Commission
Clean Air & Urban Policy Unit

EU Clean Air Forum - Introduction

- A major biennial clean air policy event supporting implementation of EU clean air legislation and policies.
- High-level interventions, panel discussions, and expert exchanges.
- Aiming to engage stakeholders in dialogue and information-sharing, to inform about and promote good practices and to inspire ambitious commitments to air pollution reduction measures.
- An EU-wide measure, it also includes speakers and participants from outside the EU.

Event format

- The EU Clean Air Forum comprises a high-level segment and topic-specific sessions for more in-depth discussions.
- Information materials produced for the Forum meetings (e.g. brochures, videos, reports) to provide added value in the longer time frame.
- Organised and designed in close cooperation with the hosting city/Member State
- EU Member States volunteer for co-hosting the Forum.

The 4th EU Clean Air Forum

- The European Commission is organising the fourth EU Clean Air Forum in close collaboration with the Ministry for Infrastructure & Water Management of the Netherlands.
- To take place in the Netherlands on 23 and 24 November 2023.
- The event will take place on the ss Rotterdam in the port of Rotterdam.
- Registration open already via the Forum webpage at:
https://environment.ec.europa.eu/events/fourth-eu-clean-air-forum-2023-2023-11-23_en

The 4th EU Clean Air Forum

Themes for the 4th EU Clean Air Forum

Linking Clean Air, Climate and Social Inequality

Maritime Shipping and Air Pollution

Multimodal transport and spatial planning for clean air

Skill and jobs for clean air

Revision of the Ambient Air Quality Directives

Spreading knowledge for cleaner air

Arctic Black Carbon impacting Climate and Air Pollution (ABC-iCAP)

- The EU-funded project Arctic Black Carbon impacting Climate and Air Pollution (ABC-iCAP) promoting awareness building and knowledge sharing with stakeholders that include the Air Convention and its subsidiary bodies, to reduce emissions of black carbon and methane impacting the Arctic.
- Work under the ABC-iCAP project includes sharing guidance documents and developing capacity-building, with a focus on Eastern Europe, Caucasus and Central Asia (EECCA) countries, to meet air quality objectives and support eventual ratification of the amended Gothenburg Protocol.
