### Notification

#### Cork Port, permit no S0021-01,

John

The Agency acknowledges the receipt of your submission LR038290 requesting a revision to permit no S0021-01 Cork Port, change of date for loading and dumping activities in Rignaskiddy East to 30th April 2019.

Having assessed the request, it is in line with the proposals discussed.

Given:

- There is no increase in overall quantity or intensity of the activity permitted;
- there was in fact no division between East & West in the NIS or advertisement for S0021-01, and hence there is no change in the scale or intensity if the activity as assessed;
- that the closed periods set out in schedule A.4 of the permit S0021-01 will be adhered to;

Under Condition 1.7 of permit S0021-01 the Agency agrees to the requested change in date, as specified in permit S0021-01, of loading and dumping activity from 31st December 2018 to the 31st April 2019, prior to the closed period as set out in schedule A.1.

Port of Cork must also adhere to the closed period for all dumping activities for February and November as per schedule A.4 of permit S0021-01 - closed periods.

Please note that the Agency may revoke this agreement at any time.

You are reminded that at all times you must comply with the terms of permits S0021-01 & S0021-02.
