

WORKSHOP

KNOWLEDGE SHARING ON RESOURCE CLASSIFICATION AND ESTIMATION

Tbilisi, Georgia 11-12 October 2023

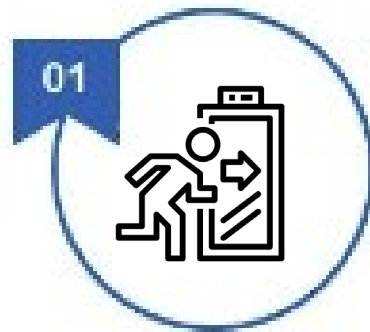

NATIONAL AGENCY
OF MINERAL RESOURCES

UNECE

Housekeeping Rules

Do's and Don'ts

Fire Exists

Avoid any hazardous risk

Restrooms

Excuse yourself silently when nature calls

Refreshments

Grab yourself a coffee

Cellphones

Kindly lock your phones and only take calls out of the room

Questions

Kindly only speak when given the floor

Opening Remarks

UNECE, Sustainable Energy Division

WORKSHOP

Agenda

SCHEDULE

1st Day

12:30 - 13:00

Welcome Coffee

13:00 - 15:00

Welcome / UNFC introduction/context, basics

15:00 - 16:00

Lunch

16:00 - 17:45

UNFC specifications (minerals, anthropogenic)

17:45 - 18:00

Coffee Break

WORKSHOP

Agenda

2nd Day

9:30 – 11:00	UNFC implementation / case studies / mineral inventories
11:00 -11:15	<u>Coffee Break</u>
11:15 -13:00	UNFC / CRIRSCO / KGZ
13:00 - 14:00	<u>Lunch</u>
14:00 – 15:45	Georgia experience & discussion
15:45 - 16:00	<u>Coffee Break</u>
16:00 - 16:30	Workshop discussion & closure of the training

Workshop Objectives

Main Aims

- Share **knowledge and experience on UNFC** different resource classification and estimation options
- Discuss the application of **UNFC** to mineral and anthropogenic resources
- Present **UNFC Status in Europe + Future Directions**
- **Understanding the different classifications available and how they translate to UNFC**
- Contribute to the ongoing discourse surrounding the **Georgian Mining Code Act**
- Explore the roadmap **of change for resource classification and estimation standards.**

Speakers

Introduction

Slavko Solar
Economic Affairs Officer
UNECE

Zoltán Horváth
Supervisory Authority for
Regulatory Affairs
Hungary

Hendrik Falck
Royalty and Resource Policy Manager
Government of Northwest Territories
Canada

Dr. Slavko Solar

Self-Introduction

- Mineral Resource Geologist, PhD
- Exploration Geologist, Head of Department, Consultant, Policy Adviser
- Geological Survey of Slovenia (incl. Mining Public Service),
- Seconded National Expert at DG GROW and Senior Scientific Officer at DG Joint Research (European Commission),
- Secretary General of EuroGeoSurveys,
- Economic Affairs Officer at UNECE

- an extensive list of publications

Introduction

Hendrik Falck

- Hendrik Falck is a Mineral Resource Geologist who has worked for Industry and Government as an exploration geologist, research scientist, consultant, and policy adviser for over 35 years.
- Experience in resource management at many different levels: from diamond exploration to regional resource assessments, and government policy making.
- Technical Editor for CIM Journal, Member of the Mineral Resource/Mineral Reserves Committee, Canadian Institute Mining and Metallurgy.
- Past-President for Geoscientists Canada and NWT Association of Professional Engineers and Geoscientists
- He has an extensive list of publications related to his expertise published in journals and conference proceedings.

Introduction of Zoltán Horváth (SARA)

Motivation, message

- Mining officer, expert, group leader on the Department of Mineral Resource Inventory and Mining Revenue
- Supervisory Authority of Regulatory Affairs (geological survey and mining and other supervision activities)
- EuroGeosurvey representative within the UNECE Expert Group for Resource Management (2018-2022)
- Task leader of the UNFC activity with the Geological Service for Europe (GSEU) project
- Coordinator of national harmonization projects for mineral resource inventory with international reporting codes and UNFC
- Representative of the Hungarian mining supervision in the European Commission Raw Materials Supply Group
- Motivation: support the sustainable resource management with an innovative and uniform tool that is easy to use.
