

SESSION: Group work

Q1.

What are the **benefits and concrete “value added”** for Botswana in acceding to the Water Convention and its implementation?

Q2: What topics and priorities does Botswana want to work on when a Party to the Water Convention?

- How to draw on the Convention for current water-related activities and for further strengthening transboundary cooperation?
- What specific challenges and issues are needed to focus on within Botswana’s transboundary basins?

Q3.

What are the **challenges in the accession process** to overcome for Botswana to accede to the Water Convention, and in its implementation, if any, and how to overcome them?

Pls have someone take notes for group reporting back in plenary
