- 2. Protected areas
- 3. Environmental restoration
- 4. Natural resources management
- 5. Biodiversity mainstreaming
- 6. Climate and biodiversity convergence
- 7. Environmental justice

EUROCLIMA+ Program

To reduce the impact of climate change and its effects in Latin America

by promoting climate change mitigation and adaptation, biodiversity conservation, resilience and investment.

EUROCLIMA + supports countries in

strengthening their climate governance

and in designing, updating and implementing climate policies in coordination with national focal points.

In 2016, EUROCLIMA+ structured its action into **six sectors**:

Forestry, energy, water management, risk management, urban mobility and food.

17 countries in Latin America 16 countries in Caribbean 7 implementation agencies

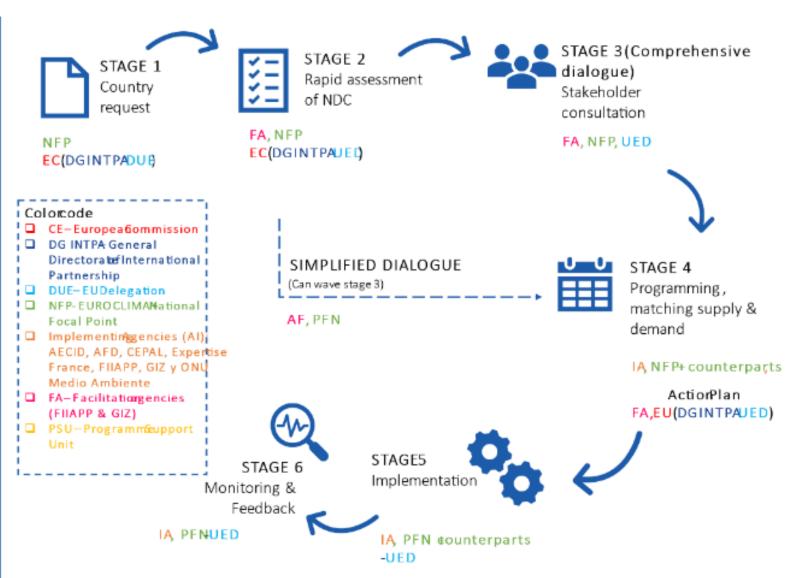

Implementation

- 22 actions implemented at national scale
- 11 countries involved
- Grants to civil societa, research sectors
- Technical assistance to ministries

Sample of actions implemented

- capacity building for forest fire risk management (Bolivia)
- capacity building for Amazonian environmental agencies (Brazil)
- Support for the implementation of zero deforestation agreements (Colombia)
- Support the creation of a binational ecological corridor and a biosphere reserve with community logging concessions (Guatemala / Honduras)
- Finance forest restoration in wetland (Paraguay)

Multi-actor virtual dialogues

27 June, 4 and 7 July 2023

La CEPAL y la UE organizan diálogos virtuales multiactor para la implementación temprana del Marco Mundial de Kunming-Montreal en la región

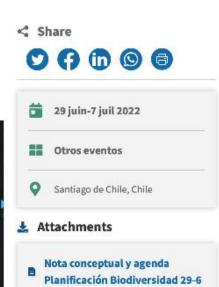

Ressources naturelles

29 JUIN 2022 | ÉVÈNEMENT

Representantes de la sociedad civil organizada, del sector privado y del sector público reflexionaron los días 29 de junio, 4 y 7 de julio sobre sinergias y desafíos entre el nuevo Marco, la planificación del desarrollo y la agricultura sostenible.
